MINIREVIEW
Recent Analytical Methods for Cephalosporins in Biological Fluids. Roger D. Toothaker, D. Scott Wright, and Lawrence A. Pachla .......................... 1157–1163

MECHANISMS OF ACTION: PHYSIOLOGICAL EFFECTS

MECHANISMS OF RESISTANCE
Penetration of β-Lactams through Pseudomonas aeruginosa Porin Channels. A. J. Godfrey and L. E. Bryan ........................................... 1216–1221
Structure and Mobilization of an Ampicillin and Gentamicin Resistance Determinant. Carlos Martin, Rafael Gomez-Lus, Jose M. Ortiz, and Juan M. Garcia-Lobo ......................................................... 1266–1270
Class D Tetracycline Resistance Determinants of R Plasmids from the Fish Pathogens Aeromonas hydrophila, Edwardsiella tarda, and Pasteurella piscicida. Takashi Aoki and Atsushi Takahashi .......................... 1278–1280
Plasmids and Resistance to Antimicrobial Agents in Aeromonas sobria and Aeromonas hydrophila Clinical Isolates. Barbara J. Chang and Sandra M. Bolton .............................................................. 1281–1282

SUSCEPTIBILITY
Comparative In Vitro Activity of CGP 31608, a New Penem Antibiotic. G. M. Eliopoulos, C. Wennersten, E. Reiszner, and R. C. Moellering, Jr. ........... 1188–1193
Activity of LY146032 Compared with That of Methicillin, Cefazolin, Cefamandole, Cefuroxime, Ciprofloxacin, and Vancomycin against Staphylococci as Determined by Kill-Kinetic Studies. Charles W. Stratton, Connie Liu, and Lyndell S. Weeks .......................................................... 1210–1215
Inhibitory Effects of Antiviral Compounds on Respiratory Syncytial Virus Replication In Vitro. Fuyuhiko Kawana, Shiro Shigeta, Mitsuaki Hosoya, Hitoshi Suzuki, and Erik De Clercq ................................................ 1225–1230

Continued on following page
Continued from preceding page

Antiviral Activity of 9-(4-Hydroxy-3-Hydroxymethylbut-1-yl)Guanine (BRL 39123) in Cell Culture. Malcolm R. Boyd, Teresa H. Bacon, David Sutton, and Martin Cole .............................................................. 1238–1242

Susceptibility Testing of Macrolide Antibiotics against *Haemophilus influenzae* and Correlation of In Vitro Results with In Vivo Efficacy in a Mouse Septicemia Model. Prabhavathi B. Fernandes, Dwight Hardy, Robert Bailar, Edith McDonald, Jill Pintar, Nancy Ramer, Robert Swanson, and Eugene Gade 1243–1250

In Vitro Susceptibility of 96 *Capnocytophaga* Strains, Including a β-Lactamase Producer, to New β-Lactam Antibiotics and Six Quinolones. Guillaume Arlet, Marie-José Sanson-Le Pors, Isabelle M. Casin, Margareta Ortenberg, and Yvonne Perol ........................................ 1283–1284

Changing Antibiotic Susceptibility of *Neisseria gonorrhoeae* in Franceville, Gabon. Martine Peeters, Eric H. Frost, Michel Collet, Simon Ossari, Francine Yvert, and Bernard Ivanoff ........................................ 1288–1290

EXPERIMENTAL THERAPEUTICS

Activity of LY146032 In Vitro and in Experimental Enterococcal Pyelonephritis. Peggy M. Miniter, Thomas F. Patterson, Margaret A. Johnson, and Vincent T. Androle .................................................. 1199–1203

Response of *Streptococcus pyogenes* to Therapy with Amoxicillin or Amoxicillin-Clavulanic Acid in a Mouse Model of Mixed Infection Caused by *Staphylococcus aureus* and *Streptococcus pyogenes*. Ronald J. Boon and Angela S. Beale .................................................. 1204–1209

CLINICAL THERAPEUTICS

Two Randomized Controlled Trials of Zinc Gluconate Lozenge Therapy of Experimentally Induced Rhinovirus Colds. Barry M. Farr, Edward M. Conner, Robert F. Betts, James Oleske, Anthony Minnefor, and Jack M. Gwaltney, Jr. .................................................. 1183–1187

Failure of Effervescent Zinc Acetate Lozenges To Alter the Course of Upper Respiratory Tract Infections in Australian Adults. Robert M. Douglas, Helen B. Miles, Brian W. Moore, Philip Ryan, and Carole B. Pinnock .... 1263–1265

Oral Ribavirin Treatment of Influenza A and B. Daniel S. Stein, Catherine M. Creticos, George Gee Jackson, Jack M. Bernstein, Frederick G. Hayden, Gilbert M. Schiif, and David I. Bernstein .................................. 1285–1287

PHARMACOLOGY

Disposition of Moxalactam and N-Methyltetrazoethiol in Rats and Monkeys. Kenji Mizojiri, Ryo Norikura, Akira Takashima, Hideo Tanaka, Takeo Yoshimori, Kazuhiro Inazawa, Tadahiko Yukawa, Hiroshi Okabe, and Koichi Sugeno .................................................. 1169–1176

Determination of Teicoplanin Concentrations in Serum by High-Pressure Liquid Chromatography. Beda Joos and Ruedi Lüthy .................................................. 1222–1224

Continued on following page
Entry of Five Antifungal Agents into the Ovine Lung. Paul D. Hoeprich, Joanne M. Merry, Robert Gunther, and Charles E. Franti ................. 1234–1237

Pharmacokinetics of Teicoplanin in Renal Failure. Christine Falcoz, Nicole Ferry, Nicole Pozet, Guy Cuisinaud, Paul Y. Zech, and Jean Sassard ...... 1255–1262

LETTER TO THE EDITOR

Praziquantel and Clonorchiasis. Andrew C. Lin and Stanley W. Chapman .... 1291

Date of Issue: 5 August 1987
