Selected compounds featured above represent a small proportion of our comprehensive range. All Tocris Cookson products are purified to the highest standards and are subject to rigorous quality control procedures. Please contact us with your requirements as milligram quantities of these and other compounds are available, often at a substantial discount from the list price.

**the benefits of using Tocris Cookson are clear:**

- **A comprehensive and diverse range.** Our catalogue details hundreds of compounds, ranging from established standards to the latest research tools.
- **High quality at a competitive price.** Tocris Cookson products provide the quality and consistency your research demands.
- **A proven commitment to customer service.** From ordering to technical enquiries, our customer service teams are always on hand to provide the information and product support you need.

ANTITHROMBOTIC DRUGS: FROM CURRENT KNOWLEDGE AND THERAPEUTIC USES TO FUTURE AVENUES

March 6-7, 1997
Institut Pasteur, Paris, France.
Chairpersons: Marie-Claude GUILLIN (Hôpital Beaujon, France), Jacques MACLOUF (INSERM U348, France) & Beat STEINER (Hoffmann-La Roche, Switzerland).

Forthcoming conferences
5-6 June 1997 NEW TARGETS FOR NEW ANTIBIOTICS
16-17 October 1997 DEVELOPMENT OF DRUGS FROM BIOTECHNOLOGIES: NEW THERAPEUTICAL STRATEGIES
24-25 November 1997 ANXIETY & OBSESSIVE COMPTULSIVE DISORDERS

English will be used by the speakers
MOLECULAR PSYCHIATRY

Editor: Julio Licinio, NIMH Bethesda
Assistant Editor: Ma-Li Wong, NIMH Bethesda

SCOPE

Molecular Psychiatry publishes work whose ultimate goal is the elucidation of the fundamental biological mechanisms underlying psychiatric disorders and their treatment. The emphasis is on work which links molecular medicine to clinical psychiatry. This includes molecular, cellular, integrative, clinical, imaging and psychopharmacology research.

Rigorous peer review and fast publication time of under six months are priorities ensuring a journal of high quality.

CALL FOR PAPERS

To ensure your work features in this exciting new journal contact:

Julio Licinio, MD
Chief, Unit on Clinical Research
Clinical Neuroendocrinology Branch
Intramural Research Program
NIMH, NIH Bldg 10, Rm 2D46
10 Center Drive, MSC 1284
Bethesda, MD 20892-1284, USA

Tel: 301 496 6885
Fax: 301 402 1561
e-mail: licinio@codon.nih.gov

The author will receive 25 free offprints of their paper

No page charges or submission fees are payable on this journal

**THE SUCCESSFUL LAUNCH OF THIS NEW JOURNAL CONTINUES...**

A SELECTION OF KEY PAPERS PUBLISHED

From Issue 1:
Differential regulation of hippocampal AMPA and kainate receptor subunit expression by haloperidol and clozapine - J H Meadow-Woodruff, R E King, S P Danask and K A Bovenkamp, University of Michigan, Ann Arbor, MI, USA

From Issue 2:
Dopamine D4 receptor gene polymorphism is associated with attention deficit hyperactivity disorder - C J LaHoste, J M Swanson, S B Wigal, C Globe, T Wigal, N King and J L Kennedy - University of California, Irvine, CA, USA and Clarke Institute of Psychiatry, University of Toronto, Canada.

FEATUREED IN NATURE GENETICS 1996; 13:136

From Issue 3:
First isolates of infectious human Borna disease virus from patients with mood disorders - L Bode, R D F Crw Wald, F A Rantam, R Ferszt and H Ludwig, Robert Koch-Institut; Free University of Berlin and Crisis Intervention Center, Berlin, Germany.

FEATURED IN THE LANCET 1996;348:256

From Issue 4:
Genetic variants of the human obesity (OB) gene: Association with body mass index in young women, psychotic symptoms and interaction with the Dopamine D2 receptor (DRD2) gene - D E Comings, R Gede, J P MacMurray, D Muhleman, P Johnson, R Verde, W R Peters, City of Hope National Medical Center, Duarte and Loma Linda University School of Medicine, Loma Linda, CA, USA

From Issue 5:
Scanning the genome with 1,772 microsatellite markers in search of a bipolar disorder susceptibility gene - M H Polymeropoulos and A A Schaffer, National Center for Human Genome Research, Bethesda, MD, USA

A leading journal in cell and molecular pharmacology

CELLULAR PHARMACOLOGY

Editors:
Claude Jasmin, France
Kenneth D Tew, USA
Nagahiro Saijo, Japan

IN 1996: Three issues will be devoted to bringing you the best papers in the field of AIDS Sciences.

Cellular Pharmacology studies the effects of drugs on living cellular systems.

- The impact of drugs on genes in normal and cancer cells
- The role of drugs in cell growth and inhibition
- The pharmacology, toxicology and biochemistry of anticancer agents
- The pharmacology, toxicology and biochemistry of antiviral and antiparasitic drugs

The readers:
Cellular Pharmacology is essential to everyone involved in the study of drugs on a cellular and molecular level in the fields of cancer research, virology, toxicology and parasitology.

ISSUES CONTAIN:

- Original peer-reviewed research and clinical papers
- Short communications
- Laboratory methods
- Book reviews
- Abstracts from selected workshops and symposiums
- Highlights of selected topics of interest to both researchers and clinicians

Order your FREE SAMPLE copy of Cellular Pharmacology – TODAY: and see for yourself the outstanding papers published in the journal devoted to the interaction between drugs and cellular systems.

☐ Please send me a FREE SAMPLE copy of Cellular Pharmacology
☐ Please send me Instructions to Contributors
☐ Please record my subscription to Cellular Pharmacology
☐ I enclose my cheque for _______ made payable to Macmillan Journals Subscriptions Ltd.

STOCKTON
How do you stop your business committing a crime?

If you take an unauthorised photocopy of this publication, you may be guilty of a crime. It is called theft. The theft of copyright is just like stealing a magazine from a newsagent.

You can be caught, and you can be fined. But take out a photocopying licence from the Copyright Licensing Agency and you have paid for the copyright, just as if you had paid for the magazine. It's as simple as that. So take out a licence now.

Ring this number

If you want to take out a licence or tell us about unauthorised copying, please ring the COPYWATCH HOTLINE: 0171 436 4242
