The Software The World Has Been Searching For.

Introducing WinSPIRS™ Call For A Free Demo Disk.

WinSPIRS™ is a remarkable new way to use the Microsoft Windows® environment to access the information you’re looking for. And, as you’ll see on our free demo disk, it provides easier, faster access for both novices and the most experienced users.

WinSPIRS joins PC-SPIRS® (the world’s #1 search and retrieval software), putting more than 160 SilverPlatter® databases at the fingertips of searchers using IBM PC and compatible computers. For your free WinSPIRS demo disk or to upgrade, please contact SilverPlatter or your local distributor. In the U.S.A., call 1-800-313-4000. In the U.K., call 0800-262-006.
TOWARD THE FUTURE...
WITH MAJORS

Majors Scientific Books has enhanced its systems and technology

• Search MORE™ using Boolean logic
• Preview new books using TACO-LINE™ (Table of Contents Online)
• Obtain database extracts using MEDICS™
• Use EDI technology for information exchange

Draw from the largest book inventory in the country, and look to Majors for new directions in technology... now and in the future.
Introducing...

Surgeons' Desk Reference™

For Minimally Invasive Surgery Products™

Medical Economics Data, publisher of the respected Physicians' Desk Reference® (PDR®), introduces a new reference guide specifically for Surgeons and Operating Room Nurses.

The Surgeons' Desk Reference™ for Minimally Invasive Surgery Products™, built upon the most extensive minimally invasive surgery product database available industry-wide, is the market's leading source of information on minimally invasive surgery-related products. It contains listings and detailed product information from more than 350 manufacturers of today's innovative surgical products — and it will be distributed free to over 14,000 key decision makers which include every Chief of Surgery and OR Supervisor in hospitals through the U.S.

Dr. Eddie Joe Reddick and Dr. William Saye, of the Advanced Laparoscopy Training Center in Marietta, GA, have supplied a foreword focusing on the current and future impact of technological advances in laparoscopic surgery. In addition, they provide commentary throughout the Product Directory which highlights applications and benefits of various product technologies.

INDEX SECTION
Contains two indices. A Product Name Index supplies the page number of each product description in the Product Directory Section. A Keyword Index serves as a cross-reference to the product categories appearing in the Product Directory.

PRODUCT DIRECTORY SECTION
Lists manufacturers supplying laparoscopic surgery equipment in over 230 product categories. Companies have provided detailed information on specific products in the following categories:
- Product Name
- Description
- Actions
- Indications
- Contraindications
- Warnings
- Precautions
- Adverse Reactions
- Specifications/How Supplied
- Assembly Guidelines
- Required Ancillary Products
- Compatibilities
- Instructions for Use
- Care and Maintenance
- Sterilization Guidelines
- OSHA Compliance Adherence
- Manufacturer's References
- Service Requirements & Contacts.

SUPPLIER PROFILE SECTION
Detailed information on each listed company included, as available, are addresses, contact names, telephone and fax numbers, ownership, subsidiaries, sales volume, employee census, and income statement.

Order from your library wholesaler or call 800-442-6657 for more information.

Georgetown University
“We’ve been here a while”
Georgetown University founded 1789
In 1994, BIOSIS will cover 1,500 international life science meetings.

How many will your researchers attend?

Chances are, they’ll attend four to five meetings – at the most. Yet, they need to know about all meeting literature related to their research.

Only BIOSIS’ sweeping coverage of worldwide life science meetings links researchers to crucial breakthroughs and new discoveries – often two or more years before the information appears in peer-reviewed journals. This “early alerting service” gives researchers an edge in their work.

Let BIOSIS inform your researchers about discoveries reported at meetings such as:
- *XIIth International Congress of Pharmacology*
- *International Conference on AIDS*
- *Annual Meeting of the Society for Neuroscience*
- *Interscience Conference on Antimicrobial Agents and Chemotherapy* and hundreds more.

Put meeting references at your researchers' fingertips today!
Meeting references are available in BIOSIS’ print, online, diskette and compact disc products. **Call today** for more information:

1-800-523-4806  (215) 587-4847
(USA and Canada)  (Worldwide)

Or, return the coupon.

Yes! Please send me information on BIOSIS' meeting coverage for the following products:
- Print
- Online
- Diskette
- CD-ROM

Name

Nothing makes the leap between clinical psychology and behavioral medicine like ClinPSYC!

As our understanding of the biological factors in psychological health and the behavioral factors in physical well-being increases, the old boundaries between the mental and the physiological are being erased. And the scientific literature needs of disciplines like clinical psychology, psychiatry, medicine, social work, pharmacology, nursing, and public health are becoming more interdependent.

To help meet these needs, PsycINFO developed ClinPSYC, a specialized CD-ROM database providing abstracts of behavioral literature relevant to these and related fields, including mental and physical disorders and treatments, psychological aspects of physical disorders and treatments, professional issues in the mental health and medical fields, neuropsychology, psychopharmacology, and health and illness assessment methods.

Since ClinPSYC is distributed by CD-PLUS and Silver Platter, you can use familiar software. The on-disc thesaurus makes subject searching precise and simple. And you can choose either a single-user workstation or a network, both priced to suit today's budgets.

For more information on ClinPSYC and our 30-day free trial, call 1-800-374-2722.

ClinPSYC — the interdisciplinary CD-ROM database for today's health professionals
"I never knew finding a physician could be so easy."

"She's Board Certified ..."
That means she's demonstrated a very high level of skill and knowledge in her specialty through extended training.
The new edition of The Official ABMS Directory of Board Certified Medical Specialists is the only official source for information on physicians certified by the twenty-four member boards of the American Board of Medical Specialties (ABMS).

"... has hospital staff privileges ..."
Hospital credentialing staffs depend on The Official ABMS Directory to supplement verification of a specialist's training. Now you can, too!

Note: This is a hypothetical listing and not intended for actual reference.

"... graduated from an accredited medical school ..."
Each physician biography includes a full academic profile, including medical school and residency. It's easy to track the progress of a physician's training in The Official ABMS Directory.

"And she's just ten minutes away!"
Find a physician across town or across the country; practitioners are listed by state and city within each specialty.

The Official ABMS Directory of Board Certified Medical Specialists
1994•26th Edition

Published by Marquis Who's Who in cooperation with the American Board of Medical Specialties (ABMS)

With training and professional details on more than 435,000 board-certified physicians, the new Official ABMS Directory of Board Certified Medical Specialists makes it easy to find accurate, authoritative, and up-to-date information on physicians certified by ABMS member boards.

Organized geographically within each specialty, it helps you find leading practitioners in twenty-five specialized fields.

Up, up and away.
These new and newly acquired
Williams & Wilkins journals are reader-worthy.

CLINICAL PULMONARY MEDICINE

Editor: Michael S. Niederman, M.D.,
F.A.C.P., F.C.C.P.

In-depth review articles help pulmonary and critical care specialists deepen their understanding of the many new advances shaping pulmonary medicine. Learn the latest treatment techniques, and glean useful insights from the field’s experts. *Bimonthly.*

CLINICAL LABORATORY MANAGEMENT REVIEW

Editor: David S. Wilkinson, M.D., Ph.D.

The only journal written with the special interests of the clinical lab in mind. CLMR covers all aspects of business management—from finances to marketing to human resources. *Bimonthly.*

EMERGENCY RADIOLOGY: A JOURNAL OF PRACTICAL IMAGING

Official Journal of the American Society of Emergency Radiology

Editor-in-Chief, Theodore E. Klatte, M.D.
Associate Editor: John H. Harris, Jr., M.D., D.Sc.

From ultrasound to magnetic resonance, this new bimonthly cuts across all imaging modalities, providing immediate, practical information to radiologists and emergency medicine physicians for treating acutely ill and injured patients. *Bimonthly.*

MEDICAL PRACTICE MANAGEMENT NEWS

Editor: Marcel Frenkel, M.D., M.B.A.

From the editors of *The Journal of Medical Practice Management,* this biweekly newsletter keeps practice managers and health administrators up-to-date on health care policy reforms and management issues. *Bimonthly.*

THE NEUROLOGIST

Editor: Barney J. Stern, M.D.

The popular “is it” line grows longer as clinicians demand information that’s hands-on and how-to. Make way for another winner. This clinically applicable journal for the practicing neurologist comes jam-packed with meaty reviews covering all the major areas of neurology. *Bimonthly,* starting January 1995.

THE NEUROSCIENTIST

Editor: Stephen G. Waxman, M.D., Ph.D.

Everything that rages must converge. And that’s what *The Neuroscientist* does best. by consolidating three of today’s hottest growth areas—neurobiology, neurology and psychiatry, under one cover. Neuroscientists will welcome this solid, review-based journal which condenses a vast domain of neuroscience literature into one easily accessible, eminently authoritative resource. *Bimonthly,* starting February 1995.

THE RADIOLOGIST

Editor: Ronald L. Eisenberg, M.D., F.A.C.R.

Now there’s a practical solution to information overload. Condensing long, complex research articles into short, informative reviews, the journal helps radiologists streamline their professional reading without missing a beat. *Bimonthly.*

Our Commitment To You.

Absolute dedication.
You're committed to keeping up with the rapidly changing world of healthcare information delivery. At Lippincott, we're committed to upholding our well-established tradition of publishing excellence. By continuing to adapt our editorial focus and develop new educational tools, we're meeting the information needs of today's healthcare professionals. We're absolutely dedicated to helping you build a stronger, more comprehensive collection—now and long into the future.

Shaping tomorrow.
At Lippincott, we're expanding new horizons so we can continue to serve the information needs of healthcare professionals worldwide. We are exploring new ways to augment our highly acclaimed list of books and journals with a variety of cutting-edge, alternative media such as computer software, audiovisuals and CD-ROM.

Make these and other Lippincott resources your connection to the future by keeping them available in your library. To order, contact your book wholesaler or subscription agent. Call us TOLL FREE at 1-800-777-2295, use our FAX: 1-301-824-7390, or write to us directly for more information on all our product lines.

Expanding new horizons.
Be an expert on 1,500 new health sciences books this year.

Better yet, be an expert on 1,500 new books without reading any of them!

More than 85 health sciences publishers send us their books for review. This allows us to cover the majority of new titles in more than 80 different medical and allied health specialties. All our reviews are written by qualified medical and allied health professionals in a consistent format designed by and for librarians.

Doody Publishing gives you two complementary ways to get our expert reviews of new health sciences books: Doody’s Health Sciences Book Review Journal brings you six issues per year, each packed with comprehensive reviews of 150 recently published health sciences books and bibliographic overviews of 100 additional titles—1,500 titles every year. An up-to-the-minute daily resource, most books reviewed in Doody’s Journal are less than three months old.

Doody’s Health Sciences Book Review Annual, 1993 is the perfect companion to your Doody’s Journal subscription. With thorough coverage of the majority of new titles published in the past year (nearly twice the number of books we have room to cover in the Journal), and bound in a sturdy hardback format. Doody’s Annual is a unique permanent reference tool.

Doody’s Journal and Doody’s Annual are independent, comprehensive, authoritative, and timely—they will help you evaluate new books better than any other tools available. Call Doody Publishing today for more information at (800) 219-9500.

Close
the gaps
in
your
collection.

With Faxon Quest you have a single source for finding missing issues, exchanging duplicates and fulfilling back orders.

If you are missing issues, have duplicates to exchange, or need a back order fulfilled, then you'll be interested in Faxon Quest™. The Faxon Quest service consists of two comprehensive, cost-effective ways to enhance and restore your serials collection.

Superior back order fulfillment.
First we offer, ReQuest™ — a comprehensive back volume fulfillment service. With ReQuest, you simply let us know what you're looking for and we do the rest.

We'll inquire price and availability of your in-print and out-of-print needs from publishers and over 40 back-volume vendors from around the world. If it's out there, we'll find it — at the most cost-effective price available.

Automated serials exchange.
To complement ReQuest, we offer SerialsQuest™ — a unique online service for locating and trading back issues and hard-to-find serials. With SerialsQuest all you do is enter your “wants” and “trades” into the database.

SerialsQuest automatically matches the wanted and available items and notifies you when a match is found. It's never been so easy to obtain or trade missing issues.

Complete your collection today.
With the Faxon Quest service you have the power to fulfill all your serials back-order needs, quickly and economically.

Call us today at 1-800-627-2216 (press #3 for direct connection) or stop by Island F during the MLA annual meeting.

We'll be happy to show you how quickly the gaps in your collection can disappear.

The Face That Launched 1,000 Ships

FROM HELEN OF TROY to Heinrich Schliemann—whose passion led to the discovery of ancient Troy—Voyager can navigate you through the treasures of your library. Schliemann spoke nine languages, but all you need is curiosity to discover Voyager's state-of-the-art Graphical User Interface (GUI). Screen icons, windows, and pull-down menus let you intuitively cruise through Voyager's integrated library system. A spectacular front end brings images and audio to life.

Not just a pretty face, Voyager is designed for power, flexibility, and security—present and future. A standards-based system, it brings you the ability to expand and convert information. Voyager employs client/server architecture in an open-systems environment using a UNIX platform.

Voyager is powerful, flexible, and easy to use. Let Voyager launch your library into the future.
Over 3500 medical libraries have discovered a sure cure for an ailing catalog.

*Automation fever.* Hundreds of medical libraries suffer from it. And hundreds more have already found a fast, effective, and affordable treatment. They called in our top medical authorities. Since 1974, we've specialized in providing superior MARC-based products — from catalog cards and label sets to MARC Record Services via our Cataloging Input System/PROMAIL. We offer MeSH Authorities Processing using our own highly accurate database of authorities records from NLM. Both bibliographic and authorities information can readily be customized to work within any system. And if your current system is *out of sorts,* we can help you migrate to a healthier one. Because of our extensive experience, we also have quick turnaround time—sometimes as fast as 24 hours—and our costs are within most everyone's range. To find out how we can help your ailing catalog, please call.

We've been the perfect prescription for over 3500 libraries.

- Sports Medicine and Arthroscopy Review
- Techniques in Orthopaedics

All on a single CD-ROM disc with hypertext links and state-of-the-art windowing features.

Search any way you want; by topic, keyword, author, and more!
Type in your request and you instantly open up a window listing all of the year's related articles from 11 leading orthopaedic journals. Just add subtopics or keywords if you want to narrow your search. You can retrieve any article. You can jump between articles on easy-to-use hypertext links. Then you can click on any figure reference to...

Zoom-up color images right over the text!
Contains thousands of full-color or grey-scale image windows. High-resolution photos, scans, radiographs, medical renderings, and more. You can reduce, blow-up, or resize images for closer examination. You can switch between images instantly, or pull up two or more windows for side-by-side comparisons.

All it takes is OrthoDisc, the ultimate CD-ROM database of orthopaedic journals.

Runs on PCs or Macintosh. Takes just minutes to learn. And it's fully compatible with other leading orthopaedic journals on CD-ROM, so you can cross-search a complete electronic library of virtually all of the year's journal articles in your field.

Visit booth # 110 at the MLA Meeting, May 15 - 18, 1994, San Antonio, TX

Order Form

☐ Yes! Please reserve my copy of OrthoDisc, the electronic library on CD-ROM. Once I receive the release form, I will sign and return it to authorize shipment of my OrthoDisc package for a 30-day on-approval review. If I wish to keep it, I will pay the invoice at the rate indicated below (check one).

☐ $495.00 US/Individual
☐ $695.00 US/Institution (+$3.50 shipping & handling)

☐ $625.00 Individuals outside US
☐ $875.00 Individuals outside US (+$12.00 shipping & handling)

Send me:  ☐ MAC version  ☐ Windows version

When Columbus went searching for knowledge, he did so without the benefit of modern equipment, an engine, or even an accurate map. Fortunately, today's discoverers in the medical community have Knowledge Finder® CD-ROM products from Aries Systems. Exploring medical literature is now fast, accurate (and even fun). End-users learn to search in minutes with our intuitive graphical interface, relevance ranking and powerful search engine. Choose natural language and/or traditional medical subject headings to access MEDLINE®, Health Planning and Administration and other specialty files.

So do what Peggy Tahir, Manager of Libraries at California Pacific Medical Center, did. Install our network version, Knowledge Server®, on your IBM® PC (or compatible), Macintosh® or mixed network. Carry your clinicians and researchers to a new world--the vast world of medical literature.

Knowledge Finder®
A system worth discovering
Real customer service.

In real time.

Providing the level of personal service we believe in requires being available when our customers need us. So our 11 regional offices in North America are staffed with customer service representatives who are only a phone call away. With at least one regional office located in each of the four major time zones, it's more likely our representatives will be where you need them when you need them — not several hours away. We believe in providing real customer service in real time.
