"Technology 
that enables 
our network 
to grow in any 
environment."

SilverPlatter’s ERL (Electronic Reference Library) Technology enables you to collect, organize and distribute electronic information through a Worldwide Electronic Library. ERL includes full support for user account management, system security enforcement, and usage statistics reporting.

Without compromise, networked users can access exactly the information they need, no matter where the user, or the information is located – with the retrieval interface of choice. Complete, seamless access to your entire electronic database collection is available for DOS, Windows®, Macintosh® or UNIX® interfaces, with the look and feel of a familiar local search environment.

As new databases and search technologies emerge, ERL keeps pace. SilverPlatter’s Data eXchange Protocol (DXP) allows for the creation of third-party products and services. The result is even more information, and potentially unlimited ways to search it. The constantly-growing array of ERL-compliant databases now includes over 200 CD-ROM titles, many of which are available for loading onto a hard disk, or through Internet Subscriptions.

ERL allows you to effectively respond to users' needs today, and the changing information landscape of tomorrow.

For complete information about ERL, and about becoming an ERL site, please call 1-800-343-0064.

TOWARD THE FUTURE... WITH MAJORS

Majors Scientific Books has enhanced its systems and technology

• Search MORE™ using Boolean logic
• Preview new books using TACOLINE™
  (TAble of Contents Online)
• Obtain database extracts using MEDICS™
• Use EDI technology for information exchange

Draw from the largest book inventory in the country, and look to Majors for new directions in technology... now and in the future.
Prescribing Decisions are based on PDR®

PHYSICIANS' DESK REFERENCE® (PDR) IS THE FUNDAMENTAL TOOL HEALTHCARE PROFESSIONALS RELY ON FOR COMPLETE PRESCRIBING INFORMATION.

- Nine out of ten physicians consider PDR their most important professional reference; 97% consult it in support of prescribing unfamiliar drugs; more than 16,000 new doctors begin residency each year and access PDR daily.
- 66% of the 2.2 million U.S. nurses access the PDR in hospitals.
- PDR is available to the 24,000 nurse practitioners and 22,000 physician assistants practicing in the U.S.
- Tens of thousands of pharmacists in 6,000 hospitals and at 60,000 retail outlets have PDR at their fingertips.*

The 1995 PDR contains more than 2,300 pages, 2,800-plus drug listings representing 250 pharmaceutical manufacturers, and over 1,700 full-size, full-color drug photographs. An exclusive multi-index feature makes the PDR remarkably easy to use.

Molecular Biology of Cancer

Editor-in-Chief
Joseph R. Bertino
Sloan-Kettering Institute for Cancer Research
Memorial Sloan-Kettering Cancer Center
New York, New York

designed for the advancement of the basic understanding of cancer and its associated aspects. The articles cover various topics including cell biology, growth, and spread of tumors, cell signaling and genetic changes, and tumor markers. Cancer therapy, drugs, resistance, and chemotherapeutic topics are also addressed. The encyclopedia contains over 1,000 articles, each written by experts in their field. The articles are accessible to scientists and those interested in cancer research.

Two-Volume Set

Encyclopedia of Human Behavior

V. S. Ramachandran

includes an up-to-date and comprehensive review of the latest research in human behavior. The encyclopedia contains over 600 articles, each written by experts in their field. The articles cover a wide range of topics, including cognition, emotion, motivation, and social behavior.

Four-Volume Set

Encyclopedia of Virology

Robert G. Webster and Allan Granoff

is a comprehensive guide to the virological literature. It covers all aspects of virology, from virology of human diseases to virology of animals. The encyclopedia contains over 1,000 articles, each written by experts in their field. The articles are accessible to scientists and those interested in virology.

Three-Volume Set

Encyclopedia of Immunology

Ivan M. Roitt and Peter J. Delves

is a comprehensive guide to the field of immunology. It covers all aspects of immunology, from the immune system to the immune response. The encyclopedia contains over 1,000 articles, each written by experts in their field. The articles are accessible to scientists and those interested in immunology.

The definitive resource in medicinal chemistry has just gotten better!

John Wiley & Sons, Inc. announces a completely updated and expanded edition of the bestselling . . .

BURGER'S MEDICINAL CHEMISTRY and DRUG DISCOVERY
Fifth Edition
Volume 1: Principles and Practice
Edited by Manfred E. Wolff, Immunopharmaceuticals Inc.

Editor:
Manfred E. Wolff, Immunopharmaceuticals

Contributors:
Alfred Burger, University of Virginia
Ralph Christofferson, Ribozyme
Richard D. Johnson, University of Missouri
Julius Tabin, Fitch, Even, Tabin & Flannery
Linda M. Klug, Marion Merrell Dow, Inc.
Leslie Benet, UC San Francisco
B. Testa, Université de Lausanne, Switzerland
Charles W. Parker, Washington U. School of Medicine
H.S. Rosenkranz, University of Pittsburgh
J.I. Drayer, Besselaar Associates
P. Veerapandian, La Jolla Cancer Research Foundation
Michael Williams, Abbott Laboratories
Peter Kollman, UC San Francisco
Stephen Dietrich, Molecular Computing Systems
Hugo Kubinyi, BASF AG, Germany
Garland Marshall, Washington U. School of Medicine
Michael C. Venuti, Parnassus Pharmaceuticals
A.D. Buss, Glaxo Group Research, Ltd., UK
Paul N. Sweetnam, Pfizer Central Research
G.L. Kenyon, UC San Francisco
Joseph Cannon, University of Iowa
Murray Goodman, U. of California, San Diego
Stanley T. Crooke, Isis Pharmaceuticals
John Musser, Glycomed
Luc P. Blatant, Psychiatric U. Institutions of Geneva

Volume 1: Principles and Practice
0471-57556-9  1,000pp.  Due 12/94
Price: $195

In the fifteen years since the last edition of this classic work was published, there has been tremendous growth in the field of drug discovery research and development. This fully updated and expanded edition (over 50% new material) reflects the latest developments in the field including state-of-the-art methods and techniques.

Completely self-contained, Volume 1: Principles and Practice presents all practitioners of drug discovery, graduate students in medicinal/pharmaceutical chemistry and biochemistry, as well as professionals interested in other types of biological actions of chemicals such as the toxicity of pesticides, or the effects of food additives, with a comprehensive, yet easily accessible overview of the field. It covers background material in medicinal chemistry as well as product development issues.

- 50% revised and expanded edition of the definitive work in the field
- Volume 1 is completely self-contained
- New edition includes material on bringing drugs to market -- covering topics such as testing, clinical trials, patent issues, and getting FDA approval
- Covers the latest methods in drug discovery including computational chemistry and peptidomimetics
- Includes literature citations through 1993

All together, this Fifth Edition will comprise five self-contained volumes (vs three in the last edition). Volume 1, as indicated, covers principles and practice. The remaining volumes (due 1996) will present comprehensive surveys of pharmaceutical agents by target organ or system - Vol. 2: Gastrointestinal and Cardiovascular Drugs; Vol. 3: Chemotherapeutic Agents; Vol. 4: Central Nervous System; Vol. 5: Endocrine and Immune System. Within each volume, each chapter provides a complete overview of a particular class of drugs.
Calm down.

CCH has all the information you need on health care reform.

CCH is the source that wields the clout on health care policy.

While the details disappeared, CCH remains at the forefront of health care discussions and decisions.

In addition, CCH provides providers and brokers with information and resources.

And it only makes sense when constantly changing.

THE SURGERY COLLECTION

Two essential tools for every surgeon or resident.

Surgical Endoscopy
Ultrasound and Interventional Techniques
Editions in U.S. and Canada are priced in $.

World Journal of Surgery
Editions in U.S. and Canada are priced in $.

The SURGERY COLLECTION (T. No. 591), $195.00, a 22% savings
Regularly $250.00 for both No. 1.

THE RADIOLOGY COLLECTION

Covering imaging of the upper body.

Abdominal Imaging
Editions in U.S. and Canada are priced in $.

CardioVascular and Interventional Radiology
Editions in U.S. and Canada are priced in $.

Dysphagia
Editions in U.S. and Canada are priced in $.

THE RADIOLOGY COLLECTION (T. No. 539), $295.00, a 15% savings
Regularly $370.00 for all three journals.

THE CLINICAL COLLECTION

Offering optional savings for medical libraries.

Abdominal Imaging
CardioVascular and Interventional Radiology
Dysphagia
Surgical Endoscopy
World Journal of Surgery

THE CLINICAL COLLECTION (T. No. 559), $374.40, a 22% savings
Regularly $475.00 for all five journals.
Local service. Global support. With international serials service from EBSCO.

No matter where your organization is located or from which countries your titles originate, with 27 offices worldwide EBSCO can be both your local and your global vendor. With one call to EBSCO you can effectively order your North American serials subscriptions through your EBSCO regional office here in the U.S., your European titles through our appropriate European offices, and even your Asian and Australian titles through the corresponding EBSCO overseas offices. And when you deal with only one serials vendor, your staff benefits through increased efficiency and more valuable serials management reports.

Subscribe globally. Order locally. With EBSCO.

New Cutting-edge Journals from

**Mary Ann Liebert, Inc. publishers**

**ALTERNATIVE & COMPLEMENTARY THERAPIES**
Editor: Kevin Blanchet
Volume 1, 1995 Bimonthly
ISSN: 1076-2809
USA $110 Overseas $140

The source for news and information on the latest trends in the rapidly growing field of alternative medicine, with an emphasis on practice and implementation. This interdisciplinary journal publishes cutting edge articles from professionals in mind-body medicine, chiropractic, acupuncture, Chinese medicine, nutrition, homeopathy, non-behavioral therapy, and other non-traditional holistic health specialties. Innovative programs and leading personalities are featured along with regular columns on treatment developments, published studies, educational materials, and upcoming conferences.

**BIOMATERIALS SCIENCE AND ENGINEERING**
Editors: ChoKyun Rha, Ph.D. and Anthony J. Sinskey, Ph.D.
Volume 1, 1995 Quarterly
ISSN: 1076-6286
USA $156 Overseas $196

This new quarterly peer-reviewed journal is a multidisciplinary forum for the rapid publication of original research and theoretical articles in a context to facilitate the development of the field. The Journal covers applications and utilization of biomaterial in biochemical, biophysical, medical, surgical, industrial, food and environmental processes. The Journal publishes research papers, original articles, news from laboratories, comments and opinions, and conference listings.

**GENOME SCIENCE & TECHNOLOGY: A CD-ROM Journal**
Editor: J. Craig Venter, Ph.D.
Volume 1, 1995 Biannual
ISSN: 1076-2830
USA $300 Overseas $343

A peer-reviewed journal offering a unique repository for genome and cDNA sequencing; mapping, informatics, biological interpretations, human disease, ethical, legal, and social issues, new technology, and computational approaches.

**TELEMEDICINE JOURNAL**
Editor: Mark A. Goldberg, M.D.
Volume 1, 1995 Quarterly
ISSN: 1078-3024
USA $156 Overseas $196

A peer-reviewed quarterly journal concerned with the transmission of digital images and information from one location to another as well as interactive videoconferencing for diagnosis and medical consultations. Includes telediagnosis, telecardiology, telepsychiatry, telepathology, teledermatology and teleprenatal surgery.

**MICROBIAL DRUG RESISTANCE: Mechanisms, Epidemiology, and Disease**
Editor: Alexander Tomasz, Ph.D.
Volume 1, 1995 Quarterly
ISSN: 1076-6294
USA $156 Overseas $196

The powerful emergence and global spread of antibiotic resistant microbial pathogens and resistance genes in the 1990's presents challenges to a wide range of disciplines—from the molecular biology of resistance mechanisms, virulence genes, and disease through molecular epidemiology all the way to drug design, infection control, and medical practice. The purpose of this new international journal is to facilitate dissemination and exchange of information by providing a multidisciplinary forum for peer-reviewed original publications as well as topical reviews and special reports in this area. An effort will be made to present information as free of technical jargon as possible in order to encourage communication across disciplinary boundaries.

**TISSUE ENGINEERING**
Editor: Charles A. Vacanti, M.D., Anthony G. Mikos, Ph.D.
Volume 1, 1995 Quarterly
ISSN: 1076-3279
USA $160 Overseas $200

This authoritative new peer-reviewed interdisciplinary journal is dedicated to engineering new tissue. It applies the principles and methods of engineering and the life sciences to the fundamental understanding of structure-function relationships in normal and pathologic tissue, and the development of biological substitutes.

Information for Today's Decisions and Discoveries
TIMELY NEW JOURNALS FROM RAVEN PRESS

CLINICAL AND APPLIED THROMBOSIS/HEMATOSIS

The Official Journal of the Academy of Clinical and Applied Thrombosis/Hemostasis

Editor-in-Chief: Rodger L. Bick

An invaluable new working tool that offers original research on the latest results of clinical trials, new pharmacologic developments, new laboratory diagnostic procedures and new management strategies for thrombotic and hemorrhagic diseases.

Volume 1, 1995. Published quarterly.
Library/institutional subscription rates: $118.00 in the U.S., $128.00 elsewhere.

INFLAMMATORY BOWEL DISEASES

Official Publication of the Crohn's and Colitis Foundation of America

Editors-in-Chief: Robert Burakoff and Richard P. MacDermott

Provides current information in the clinical and basic sciences to all physicians and investigators who are caring for patients with IBD or performing research related fields. The journal features peer-reviewed original articles and reviews in basic and clinical sciences, updates on clinical trials, reviews of the current literature, case reports, and other columns.

Volume 1, 1995. Published quarterly.
Library/institutional subscription rates: $108.00 in the U.S., $118.00 elsewhere.

THE WILMER RETINA UPDATE

Editor-in-Chief: Neil M. Bressler

This eminently authoritative and practical newsletter provides up-to-the-minute case reports that clearly demonstrate the application of recent clinical research to the management of common and rare retinal disorders. Each case is compiled with commentary by a leading retinal specialist and extensively illustrated.

Volume 1, 1995. Published bimonthly.
Library/institutional subscription rates: $88.00 in the U.S., $103.00 elsewhere.

TECHNIQUES IN NEUROSURGERY

Editors: Christopher M. Lofts and H. Hunt Batjer

Provides technique-oriented coverage of the latest neurosurgical procedures as they are conceived and executed by leading neurosurgeons. Each article covers basic indications, surgical positioning and each phase of the operative procedure.

Volume 1, 1995. Published quarterly.
Library/institutional subscription rates: $115.00 in the U.S., $130.00 elsewhere.

ADVANCES IN ANATOMIC PATHOLOGY

Editors: John K.C. Chan and John Batsakis

The most practical resource for managing the pathology information explosion. Provides expert insights on new entities, techniques and findings condensed in an easy-to-read, standardized format. Each abstract includes insightful commentary by top authorities.

Library/institutional subscription rates: $121.00 in the U.S., $131.00 elsewhere.

ANNALS OF SURGICAL ONCOLOGY

The Official Journal of The Society for Surgical Oncology

Editor: Charles M. Balch

Here is an oncology journal designed specifically to bring the latest, most significant developments involving multidisciplinary cancer care and research to the practicing surgeon from all specialties.

Library/institutional subscription rates: $187.00 in the U.S., $208.00 elsewhere.

JOURNAL OF BRONCHOLOGY

Dedicated to the Art and Science of Bronchoscopy and Related Disciplines

Editor-in-Chief: Udaka B.S. Prakash

Provides on-going coverage of new developments, trends, and equipment in bronchoscopy and other closely related disciplines, including thorascopy/pleuroscopy, laryngoscopy, and thoracic surgery.

Library/institutional subscription rates: $119.00 in the U.S., $135.00 elsewhere.

MENOPAUSE

The Journal of the North American Menopause Society

Editor-in-Chief: Isaac Schiff

Editor: Wulf H. Utian

Menopause is the new peer-reviewed scientific journal devoted exclusively to a complete exploration of subjects pertaining to menopause. It will be the one resource you can turn to for reliable, up-to-the-minute information in this field.

Library/institutional subscription rates: $108.00 in the U.S., $119.00 elsewhere.

THE OTOLARYNGOLOGY JOURNAL CLUB JOURNAL

Editor: Paul Donald

An indispensable tool for managing an ever-increasing flow of information. Provides expertly condensed articles in a readable, standardized format. Each abstract is accompanied by insightful commentary. Critical illustrations from original articles and key references are also included.

Library/institutional subscription rates: $113.00 in the U.S., $123.00 elsewhere.

All subscriptions are entered on a calendar-year basis. Prices include $3.00 handling.
Raven Press journals are distributed exclusively in Japan by Igaku-Shoin, Ltd. Please contact them for subscription information.

114
Donor Insemination
Christopher Barratt and Ian Cooke, Editors
"...is helpful for anyone approaching donor insemination for the first time or when setting up a donor insemination service. It is readable and can serve as a source of information for nurses, residents, lay readers, practitioners and anyone interested in the topic...a significant contribution and needed resource for teaching and assessing the state of donor insemination today.”
— PonJola Coney, Fertility & Sterility
1993 241 pp. 40433-9 Hardback $54.95

Molecular Genetics for the Clinician
D.J.H. Brock
"...will serve as a much-needed source of reference and explanation for students and practitioners in all medical disciplines who wish to increase their understanding of molecular genetics in a clinical context.”
— Human Genome Abstracts
1993 301 pp. 41179-3 Hardback $69.95
42325-2 Paperback $24.95

A Practical Guide to Human Cancer Genetics
Shirley V. Hodgson and Eamonn R. Maher
"...comprehensive and amazingly up-to-date...a valuable adjunct for medical students as part of their medical genetics courses. Resident physicians in virtually all specialty areas would also profit from this valuable guide to genetic cancer problems.”
— Henry T. Lynch, American Journal of Epidemiology
1993 258 pp. 40128-3 Hardback $79.95
40951-9 Paperback $34.95

Preventive Care for Elderly People
David C. Kennie
"This book covers a large amount of material in a concise, well organized manner. The Author critically evaluates preventive care in the elderly and is not just a cheerleader for prevention. He is not afraid to point out gaps in our knowledge or state where evidence of effectiveness is lacking...a good overview of the subject and an enjoyable read.”
— Journal of the American Geriatrics Society
1993 334 pp. 43044-5 Hardback $80.00

AIDS, HIV and Mental Health
Michael B. King
"...a very useful book. It is concise and clearly written and presents a critical review of world literature on mental health aspects of HIV infection.”
— Katie Busch, Doody’s Health Care Journal
1994 207 pp. 42356-2 Paperback $19.95

Cytokine Therapy
David W. Galvan and John C. Cawley, Editors
"...a concise and thoroughly readable account of important clinical specialties on which cytokine therapy has already made an impact.”
— Trends in Microbiology
1993 205 pp. 41232-3 Hardback $69.95
42337-6 Paperback $27.95

Colorectal Cancer
A Scientific Perspective
Anne R. Kinsella
Foreword by F. Schofield
"The writing style is clear and succinct...Both the clinician and scientist should find this an easy and economical way to learn about new concepts in this exciting arena of cancer research.”
— Gary A. Glover, The Cancer Bulletin
1993 173 pp. 36199-0 Hardback $84.95

Pulmonary Function A Guide for Clinicians
Gabriel Laszlo
"...a sound text dealing with pulmonary physiology as it relates to clinical medicine.”
— Edward R. Garrity, Jr., Doody’s Health Care Journal
1994 258 pp. 43050-X Hardback $64.95
44679-1 Paperback $34.95

Planetary Overload
Global Environmental Change and the Health of the Human Species
A.J. McMichael
"...lucid and convincing...this is a book with built-in appeal to epidemiologists...inviting, informing, and enabling us to face and begin to be effectively involved in the strategies for the future of our neighborhoods, our countries, and our species.”
— American Journal of Epidemiology
1994 368 pp. 44138-2 Hardback $64.95
45759-9 Paperback $17.95

WHO Manual for the Standardized Investigation and Diagnosis of the Infertile Couple
Patrick J. Rowe, F.H. Comhaire, T.B. Hargreave, H.J. Mollens, Editors
"...a succinct, yet comprehensive manual to guide the evaluation of infertile couples.”
— James Aiman, Doody’s Health Care Journal
1993 83 pp. 43136-0 Paperback $24.95

AIDS and HIV in Perspective
A Guide to Understanding the Virus and Its Consequences
Barry D. Schoub
"Well-researched, easy to understand, Schoub’s book outlines in detail the discovery of the disease and several hypotheses about why it might have festered.”
— Publishers Weekly
1994 288 pp. 45231-7 Hardback $65.00
45874-9 Paperback $19.95

WHO Laboratory Manual for the Examination of Human Semen and Sperm-Cervical Mucus Interaction
Third Edition
World Health Organisation
"...clearly targeted for researchers who are involved in human semen analysis. However, other human biologists who are working in the areas of DNA fingerprinting, paternity determination, and reproductive biology will find this manual of interest...clearly written and illustrated.”
— Leslie Sue Lieberman, American Journal of Human Biology
1993 115 pp. 42168-3 Paperback $32.95

40 West 20th Street, New York, NY 10011-4211. Prices subject to change.

CURRENT PRACTICE IN HEALTH SCIENCES
LIBRARIANSHIP

Edited by Alison Bunting

Now Published, Vol. 1—
REFERENCE AND INFORMATION SERVICES in Health Sciences Libraries
Sandra Wood, ed.
"...writing and editing quality is very good,... volume is well organized....represents an important contribution to the profession."—James Shedlock, Doody's Health Sciences Book Review Journal

This first volume of the new CURRENT PRACTICE series is supplemental to the standard HANDBOOK OF MEDICAL LIBRARY PRACTICE, which is still available and valid. Over the next several years, seven additional volumes will be published, and, when complete, the new set will replace the 3-volume set, published between 1982 and 1988.

HANDBOOK OF MEDICAL LIBRARY PRACTICE
Louise Darling, David Bishop, & Lois Ann Colanant

VOL. I: Public Services in Health Sciences Libraries
SPECIAL $17.46 MLA MEMBERS PAY $13.58

VOL. II: Technical Services in Health Sciences Libraries
SPECIAL $21.42 MLA MEMBERS PAY $16.66

VOL. III: Administration

REACHING NEW DIMENSIONS IN INFORMATION DELIVERY

At J.B. Lippincott, we're continually exploring new ways to expand our highly-acclaimed collection of resources for ophthalmology professionals in a variety of cutting-edge formats.

Call us for a free preview of any of these outstanding resources to discover how they will enhance your collection!

OPHTHALMOLOGY
The Journal of the American Academy of Ophthalmology
Published monthly in January, April, July, and October.

Subscription rates: Domestic: $175.00 International: $210.00
A portion of the U.S. World War II Liberty Bonds ($25) is included.

NEW OPHTHAMOLOGY ON CD-ROM $495.00
$445.00 & shipping in U.S. or $450.00 Overseas. US. tax $45.00.

RETTINA
The Journal of the American Academy of Ophthalmology
Published monthly in April, July, October, and November.

Subscription rates: Domestic: $195.00 International: $225.00
A portion of the U.S. World War II Liberty Bonds ($25) is included.

DUANE'S OPHTHALMOLOGY ON CD-ROM
Please call for prices.

OPHTHALMOLOGY WORLD NEWS
The Clinical Newspaper of the American Academy of Ophthalmologists
The latest journal that keeps you abreast of important developments and timely information in the field.

Subscription Rates: Domestic: $111.00 International: $148.00
All orders outside the U.S. except in Canada must add $17.50 for Priority Delivery.

INVESTIGATIVE OPHTHALMOLOGY & VISUAL SCIENCE

Subscription rates: Domestic: $235.00 International: $280.00
A portion of the U.S. World War II Liberty Bonds ($25) is included.

It's just a matter of time

For almost half a century, we've been using the latest technology to meet your serials processing needs. When you needed a fast, easy system for day-to-day serials functions, we developed REMO, the first PC-based serials control system. Then we networked REMO, another industry first.

To help you save time and money in your ordering and claiming, we built the online ROSS system. Then we developed electronic order forms and invoices as well as X12 interfaces for all major library systems. And now, we're bringing you BarPro, the bar code technology that will redefine serials control.

If you're looking for some innovative answers to your serials processing needs, call us today at 1 800-221-3306.

READMORE AUTOMATION
Meeting every need

22 Cortlandt Street • New York, NY 10007-3194 • 1 800-221-3306

Why do you want to pay inflated commercial prices when you can have a low-cost, university-based, non-profit system that provides you with:

LIS
The Georgetown University Library Information System

Georgetown University
"We've been here a while"
Georgetown University founded 1789
A woman on a quest, Elizabeth Blackwell, the modern world's first female doctor, persevered. When no medical school would accept her, she studied privately with doctors throughout the south. Her search for knowledge took her to Paris, London and eventually, The Geneva Medical School. Through hard work and determination, she was accepted, and graduated at the top of her class.

Fortunately, today's medical community has much easier access to knowledge. By combining the traditional (medical subject headings) with the innovative (natural language and relevance ranking), those using and teaching searching on Knowledge Finder CD-ROM products save time and gain knowledge. With graphic, intuitive, windowed products, the Knowledge Finder "searching" experience opens new windows of opportunity.

So do what Lois Bellamy and the University of Tennessee did. Help doctors and other health professionals open "windows of knowledge". Install Knowledge Finder, on a Macintosh®, PC, or network today. Access MEDLINE, CINAHL® and other specialty files on CD-ROM in the powerful, natural, fun way!
All the tools for a successful operation.

A successful operation requires precision tools. The same can be said for electronic medical research. At EBSCO Publishing we have developed an array of affordable CD-ROM databases to support all your researchers' needs.

The common thread between all our databases is the EBSCO-CD™ search software. Expert and novice users will discover features designed to make precision searches painless. Ask about our latest software release with Command Line Searching, MeSH® Assist and Hypertext Links.

EBSCO is known worldwide as the premier serials management provider to medical institutions and recognized as a growing force in CD-ROM technology. See for yourself with a FREE 60-DAY evaluation.
