ERL - the information professionals' choice this year, and for years to come - offers:

TRUE CLIENT/SERVER ARCHITECTURE
ERL Technology maximizes network efficiency and ensures that users get optimal performance from the retrieval client of their choice.

MULTIPLE PLATFORMS
ERL Clients are available for Windows, MacOS, DOS and UNIX platforms, so you can use the platform most consistent with your existing environment. ERL Server platforms include SCO-UNIX and Sun Solaris, with IBM AIX coming soon.

EXPANDING OPTIONS
Through our own development efforts, as well as industry collaborations, we continue to expand the number of client and server platforms available, offering even greater flexibility and choice.

EASY INTERNET ACCESSIBILITY
Now you can have Internet access to many databases on your choice of platform, with fully functional clients that provide the same search experience as their standalone counterparts - all for a fixed-fee subscription price.

PROVEN NETWORK SOLUTION
More than 85 major institutions and corporations worldwide have proven ERL to be an outstanding network solution. Now you can join them.

ERL IS AVAILABLE TODAY!
Call now for further details describing how you can benefit from ERL Technology, and to receive the new 1995 SilverPlatter Directory of products and services.
Contact us toll-free at 800-343-0064, or via the Internet at info@silverplatter.com.

Authoritative Answers to Today's Most Common Nutrition and Health Questions

FREE BONUS BOOK! Shrink-wrapped to each copy of the new PDR Family Guide to Nutrition and Health™ is a FREE pocket size (4" x 6") Fat, Cholesterol and Calorie Counter.
REACHING NEW DIMENSIONS IN NURSING INFORMATION DELIVERY

At J.B. Lippincott, we're continually exploring new ways to expand our highly-acclaimed collection of resources for nursing professionals in a variety of cutting-edge formats. Explore these dynamic resources to complete your collection today!

AACN CLINICAL ISSUES: Advanced Practice in Acute and Critical Care

This comprehensive, content-rich approach to advanced practice in acute and critical care is designed to help nurses become leaders in their fields through evidence-based practice, critical thinking, and clinical reasoning. The book covers a wide range of topics, including patient assessment, intervention planning, and evaluation. It's an essential resource for nurses wanting to advance their careers.

Domestic: $62.00 International: $75.00
All orders outside the U.S. Mercury or Canada must include $12.00 for Air Freight Delivery.

Indices

MASTERING CLINICAL SKILLS, Volume 1

The core teaching tool for developing the skills and techniques nurses require to practice at the highest levels. Each book includes comprehensive content, step-by-step instructions, and detailed illustrations to help nurses master the skills they need.

ISBN: 0 397 55225 7, Price: $60.00, Five Disk Set with User's Guide, $50.00

Notes

NEW EDITION!

AY CRM GUIDE TO PHYSICAL EXAMINATION, Third Edition

This unique supplement to the Clinical Physical Examination Review Guide, Soft Cover edition, is a full-color, easy-to-read, step-by-step approach to physical examination techniques. With a renal wash to physical examination in the most recent edition, it also includes new topics such as assessment and documentation.

ISBN: 0 397 55225 7, Set of 12 + 12/424 Voluntaries, $15.75 Minutes/Ear $1.00

Lippincott's Manual of Nursing Practice, Sixth Edition

This essential resource is a comprehensive guide to nursing care in all settings, including acute care, critical care, and long-term care. With over 1,000 pages of content, it covers all aspects of patient care, from assessment to intervention planning and evaluation.

ISBN: 0 397 55225 7, Price: $49.00

Lippincott's Nursing Drug Guide

The newest edition of this comprehensive drug reference is designed to provide nurses with quick access to essential information about over 1,000 drugs. It includes detailed information on drug classes, indications, dosages, and side effects, making it an invaluable resource for nurses in all settings.

ISBN: 0 397 55225 7, Price: $24.95

EMDOCS
DOCUMENT DELIVERY SERVICE

Your One-Stop Source for Drug & Biomedical Literature
Using our captive collection of over 3500 international journals, supplemented by access to strategically allied collections throughout the world, EMDOCS provides copies of articles in record time—even from difficult to locate journals.

EMDOCS Provides
Full-text copies of articles referenced in:
• EMBASE, the Excerpta Medica database
• MEDLINE
• CABS (Current Awareness in Biological Sciences)
• Other biomedical databases

EMDOCS Means
• Competitively Priced Document Fulfillment
• Rapid Turnaround Time—Even for Difficult to Locate Articles
• Worry-Free Copyright Compliance
• Six Convenient Delivery Options Including Internet Fax Service
• Expert Handling of Every Aspect of Order Processing
• Advanced Technological Expertise

For information on 100- and 200-document packages and other bulk orders contact Jane Opperman
800-457-5633 / 212-633-3947 / Fax: 212-633-3975

EMDOCS
469 Union Avenue / Westbury, NY 11590 / USA
800-282-2720 / 516-997-0796 / Fax: 516-997-0890 / Internet: dds@work4u.artx.com
When trying to get from the bibliographic database to the full text, go for the straight-line approach. Go for The Genuine Article® (TGA).

Convenient on-ramps You can access TGA from a multitude of places, including all ISI® databases, most online vendors, and by fax or phone.

Strong underpinnings TGA is backed by thirty-five years of experience in document delivery, with an emphasis on strict copyright compliance.

Low tolls TGA rates are highly competitive. You can save even more through volume discounts and yearly contracts.

Reliable road service TGA representatives are always just a phone call away if you need to pull off to the side to ask directions.

No speed limits While we always turn your order around in twenty-four hours or less, you can get it by fax in 30 minutes if you really need it fast.

The Genuine Article. It's easy, fast, and safe. And it's straight ahead.

For more information, call 1.800.336.4474 or 1.215.386.0100, ext. 1145.
**ALTERNATIVE & COMPLEMENTARY THERAPIES**

Bimonthly publication for health care practitioners covers mind/body medicine, chiropractic, acupuncture, Chinese medicine, nutrition, vitamin therapy, and other non-traditional holistic health specialties. It includes profiles of innovative programs and leading authorities.

Volume 2, 1996
Bimonthly, ISSN: 1076-2809
- USA $110, plus $12 p&h
- Overseas $140, includes p&h

**THE JOURNAL OF ALTERNATIVE & COMPLEMENTARY MEDICINE: Research on Paradigm, Practice, and Policy**

This peer-reviewed journal is an important archival source for research in alternative medicine. Includes observational and analytical reports on treatments outside the realm of allopathic medicine that are gaining interest and warranting research to assess therapeutic value. Under the guidance of an internationally respected editorial board, the journal’s primary goal is to establish rigorous research methodologies.

**Editor-in-Chief:** Marc S. Micozzi, MD, PhD
**Senior Editor:** Fred Kronenberg, PhD
**European Editor:** Kim A. Johnst, MA, MRCP

Volume 2, 1996
Quarterly + Suppl., ISSN: 1076-5535
- USA $120, plus $12 p&h
- Overseas $150, includes p&h

**MICROBIAL DRUG RESISTANCE: Mechanism, Epidemiology, and Disease (Increased to Bimonthly in 1996)**

The powerful emergence and global spread of antibiotic resistant microbial pathogens and resistance genes in the 1990s presents challenges to a wide range of disciplines—from the molecular biology of resistance mechanisms, virulence genes, and disease through molecular epidemiology all the way to drug design, infection control, and medical practice. This new international journal provides a multidisciplinary forum for peer-reviewed original publications as well a topical reviews and special reports. Indexed in Cambridge Scientific Abstracts.

**Editor:** Alexander Tomasz, PhD

Volume 2, 1996
Quarterly + Suppl., ISSN: 1076-6294
- USA $175, plus $12 p&h
- Overseas $220, includes p&h

**TISSUE ENGINEERING**

Authoritative new peer-reviewed journal focuses on the engineering of new biologic tissues. Brings together scientific and medical experts in the fields of biomedical engineering, material science, molecular and cellular biology and genetic engineering.

**Co-Editors:** Charles A. Vacanti, MD
Anthony G. Mikos, PhD

Volume 2, 1996
Quarterly + Suppl., ISSN: 1076-3279
- USA $176, plus $12 p&h
- Overseas $220, includes p&h

**TELEMEDICINE JOURNAL**

Peer-reviewed journal concerned with the transmission of all aspects of clinical medicine practice, technical advances, enabling technology, and research including the transmission of digital images and information from one location to another, interactive videoconferencing, for diagnosis, treatment, and education, plus the impact of telemedicine the quality, cost effectiveness, and access to health care. The official journal of the American Telemedicine Association.

**Editor:** Mark A. Goldberg, MD

Volume 2, 1996
Quarterly + Suppl., ISSN: 1078-3024
- USA $172, plus $12 p&h
- Overseas $216, includes p&h

**BOOKS**

**THE AUTHOR’S GUIDE TO BIOMEDICAL JOURNALS:**

Contains the complete and unabridged instructions for manuscript submission for 250 biomedical journals. The book is compiled alphabetically by journal title and includes an index of the publishers’ names, addresses and phone numbers.

1996, Approx. 700 Pgs.
ISBN: 0-913-113-72-7
- USA $184, plus $12 p&h
- Overseas $214, includes p&h

**GENE THERAPY - A Handbook for Physicians**

*Nature Medicine*, May 1995 writes— “As a frontline participant in pioneering and continuing studies in gene therapy, Culver has the credentials to write on the subject. His efforts to this end are most welcome. (Professionals in the field will not be sated by its content, but those of us on the sidelines have much to gain from reading it.)”

**Editor:** Kenneth W. Culver, MD

1994, 128 Pgs.
ISBN: 0-913-113-63-8
- USA $59, plus $5 p&h
- Overseas $70, includes p&h

**ADVANCES IN ANTI-AGING MEDICINE**

The book sponsored by the American Academy of Anti-Aging Medicine (A4M), takes medicine beyond gerontology to the point where aging is not inevitable, but is reversible and treatable. Chapters cover scientifically and biomedically proven forms of detection, prevention, and reversal of aging-related diseases, plus life-extending technologies and medical protocols. Includes 10-year bibliography and appendix of suppliers, associations, and organizations.

**Editor:** Ronald M. Klatz, DO

1996, approx. 400 Pgs.
- USA $135, plus $12 p&h
- Overseas $150, includes p&h

the only reference that updates itself - available on CD-ROM

PULMONARY AND CRITICAL CARE MEDICINE
Roger C. Bone, MD
David R. Dantzker, MD
Ronald B. George, MD
Richard A. Matthay, MD
and Herbert Y. Reynolds, MD
With 226 contributors

Available
December 1995
$295.00
Bookcode 27522

CD-ROM also includes
• 3 years of Year Book of Critical Care Medicine
• 3 years of Year Book of Pulmonary Disease
• 3 years of Current Pulmonology

System Requirements For Windows:
Minimum 80386 33 MHz with 4MB RAM 80486 with 8MB RAM recommended; 5MB hard disk space available; MS-DOS 5.0 and Windows 3.1 or later
CD-ROM drive, double speed recommended; Minimum 256 color graphics card and monitor; graphics card that provides thousands of colors recommended

System Requirements For Macintosh:
Minimum 68030 computer with 4MB RAM 68040 with 8MB RAM recommended; Minimum 256 color graphics display, high resolution graphics display recommended; 5MB hard disk space available; CD-ROM drive, double speed recommended; System 6.8 or higher

Mosby
You could buy a collection of CDs in these areas...

...and still not match the coverage found in Biological Abstracts on Compact Disc.

Why purchase several compact discs when you can rely on a single source for access to the widest range of life science journal literature: Biological Abstracts on CD.

Comprehensive Journal and Subject Coverage

Nearly 6,500 international journals are monitored for Biological Abstracts on CD, so researchers can pinpoint relevant references quickly and easily. Biological Abstracts on CD's extensive multidisciplinary life science coverage enables you to direct a variety of researchers to this single, convenient source.

A Smart Investment

Biological Abstracts on CD eliminates the need to purchase costly single-subject publications that offer limited coverage. Plus, Biological Abstracts on CD employs SilverPlatter's or Ovid's user-friendly software, so even novice searchers achieve optimum results.

EXPLORE THE FUTURE OF MEDICAL INFORMATION WITH OCLC

Just call or send us an e-mail message. We'll send you a demo diskette of Current Opinions, the online series of electronic journals that you can access using OCLC's award-winning Guidon interface or the World Wide Web.

Current Opinions offers the fastest access possible to current medical and biological research findings. The series includes:

**R Current Opinions in MEDICINE**
Rapid Science Publishers
Current Opinions in Medicine, published by Rapid Science Publishers, a collection of 24 medical journals in a single database.

**CB Current Opinions in BIOLOGY**

Both offer:
• access to articles within 48 hours of publication
• powerful cross-journal searching
• typeset-quality text
• halftones and color images
• equations, tables, and figures
• links to MEDLINE citations and abstracts

Contact us today. We'll send you more information about Current Opinions and OCLC's growing collection of electronic journals. Let your no-obligation demo diskette launch your journey to the future of medical information.

Collection Management

Editor-Elect: Sul Lee
Dean of Libraries, Oklahoma State University, 401 E. Brooks, Norman, OK 73019

“Aimed at librarians responsible for collection development and maintenance, this journal includes articles on both theoretical and practical aspects... SUITED TO ACADEMIC LIBRARIES AND LIBRARY SCHOOL COLLECTIONS.”
Magazines for Libraries

“The topics discussed in this journal are timely and relevant and are USEFUL TO THE EVERY-DAY PRACTICING LIBRARIAN.”
Marcus Patz, MLS, Vancouver, British Columbia, Canada

Collection Management examines the latest developments in the field and their implications for college, university, and research libraries of all types. It presents many different kinds of articles on an extensive range of topics—some pragmatic and topical, others theoretical, and still others state-of-the-art.

Selected Contents in the Current Volume:

Volume 20, Nos. 1-2—Spring 1995, Quarterly (4 issues)
Volume 21, Nos. 1/2—Fall 1995, Quarterly (4 issues)
(double volume, n. 1995)

Journal of Library Administration

Editor: Sul H. Lee
Dean of University Libraries, The University of Oklahoma, 401 E. Brooks, Norman, OK 73019

“THE JOURNAL IS A SOLID ADDITION TO THE LITERATURE AND MY OWN PROFESSIONAL READING. I look forward to the ‘theme’ issues which provide a concise, timely, practical review and philosophical discussion of important management topics.”
Robert D. Stueart, Ph.D., Dean, Graduate School of Library & Information Science, Simmons College

The Journal of Library Administration is the primary source of information on all aspects of the effective management of libraries. Stressing the practical, this valuable journal provides information that administrators want to know and need to know in order to most efficiently and effectively manage their libraries. The journal seeks out the most modern advances being made in professional management and applies them to the library setting.

Selected Contents in the Forthcoming Volume:

Volume 21, No. 1—Spring 1995, Quarterly (4 issues)
Volume 22, No. 1—Fall 1995, Quarterly (4 issues)
(double volume in 1995)
Subscription rates (per volume):
Special Discounted Rate for Individuals: $40
Institutions: $105/Libraries: $105

MEET THE EDITOR
Sul H. Lee, Dean of the University Libraries, University of Oklahoma, is an internationally recognized leader and consultant in the library administration and management field. Dean Lee is a member of the Board of Directors, Association of Research Libraries, and the ARL, Office of Management Services

Advisory Committee

PAD95
**ANATOMY/PHYSIOLOGY**

**The Anatomy and Physiology of the Mammalian Larynx**  
**D.F.N. Harrison**  
An authoritative book which relates the anatomy of the larynx to its function in respiration, locomotion and vocalisation.  
1995 300 pp. 45321-6 Hardcover $74.95

**BIOLOGICAL ANTHROPOLOGY**

**Human Energetics in Biological Anthropology**  
**Stanley J. Ulijaszek**  
Human Energetics in Biological Anthropology considers various ways in which measurements of energy intake, expenditure and balance have been used to study human populations by biological anthropologists and human biologists.  
*Cambridge Studies in Biological Anthropology 16*  
1995 244 pp. 43295-2 Hardcover $54.95

**MICROBIOLOGY**

**Fifty Years of Antimicrobials**  
**Past Perspectives and Future Trends**  
**P. A. Hunter, G. K. Darby and N. J. Russell**  
This volume reviews the immense progress which has been made during the past half-century in the study of pathogenic microbes and the development of methods for their control. It draws together contributions on the development of key antimicrobial compounds, as well as considering broader issues such as antimicrobial production, screening, improvement and resistance.  
1995 388 pp. 48108-2 Hardcover $115.00

**NEUROLOGY**

**Fever and Antipyresis**  
**The Role of the Nervous System**  
**Keith E. Cooper**  
A detailed overview of the function of the nervous system in fever and its role in antipyresis. The volume opens with an introductory account of fever, its physiology and adaptive role, and explains the mechanisms of thermoregulation. Sufficient information about bacterial pyrogens, 'endogenous' pyrogenic cytokines, body temperature regulation and survival value of fever and its ubiquity is given to enable readers to follow the CNS involvement.  
1995 197 pp. 41924-7 Hardcover $49.95

**Photographic Atlas of the Rat Brain**  
**The Cell and Fiber Architecture Illustrated in Three Planes with Stereotaxic Coordinates**  
**Lawrence Krugier, Samuel Saporta and Larry W. Swanson**  
The atlas is comprised of a comprehensive set of photomicrographs of technically excellent sections of the brain of the laboratory rat. Its reasonable price and sturdy binding render it suitable for use at the laboratory bench.  
1995 320 pp. 41342-7 Hardcover $130.00  
42403-8 Spiralbound $69.95

**Neurobiological Effects of Sex Steroid Hormones**  
**Paul E. Mickey and Ronald R. Hammer, Jr.**  
Covers a broad range of topics, extending from the molecular and cellular processes, through the action of steroids on neurotransmission, all the way to defining the brain circuitry involved in both male and female behavior.  
1995 459 pp. 45430-1 Hardcover $84.95

**OBSTETRICS/GYNECOLOGY**

**Gametes—The Oocyte**  
**J.G. Grudzinskis and London J. Yovich, Editors**  
A wide-ranging analysis of the gametes and their reproductive role in humans, this text includes a detailed account of the oocyte. It contains particularly helpful information on female infertility and its treatment for clinicians and scientists.  
1995 454 pp. 47490-6 Hardcover $110.00  
47995-9 Paperback $49.95

**PEDIATRICS**

**Physiological Monitoring and Instrument Diagnosis in Perinatal and Neonatal Medicine**  
**Yves W. Brans and William W. Hay, Jr., Editors**  
Chapters cover each of the principal imaging modalities, tissue oxygenation measurement, electrical monitoring, ventilators and incubators, and the measurement of blood flow and bilirubin levels, and review the practical uses of the technology, with an evaluation of its risks and benefits.  
1995 404 pp. 41951-4 Hardcover $130.00

---

**Glue Ear in Childhood**  
**A Prospective Study of Otitis Media with Effusion**  
**Richard Maw**  
Based on data compiled from a large number of prospective and longitudinal studies, this volume evaluates the course and some of the causes of the condition. It includes an analysis of the effects of various forms of surgical management and complications due to the disease and treatment.  
*Clinics in Developmental Medicine 135*  
Copublished with the Distributed for Mac Keith Press  
1995 144 pp. 1-898-68303-4  
Hardcover $49.95

**The Medical Practitioners' Guide to Paediatric Audiology**  
**Barry McCormick, Editor**  
A handy reference guide for medical practitioners who do not have specialist knowledge in pediatric audiology but who, nevertheless, will encounter many cases with mild hearing impairment in childhood and occasional cases with more severe hearing problems.  
1995 132 pp. 45986-5 Paperback $29.95

**Handbook of Prenatal Diagnosis**  
**Ronald J.A. Trent, Editor**  
This handbook explains the techniques available, indications, clinical use, and complications. It also covers the diagnosis of infectious disease in the fetus and neonate and laboratory screening tests for the newborn.  
1995 c.280 pp. 46060-3 Hardcover $94.95  
46613-X Paperback $44.95

**PSYCHIATRY**

**Clinical Child Neuropsychiatry**  
**Christopher Gillberg**  
A unique interdisciplinary examination of neuropsychiatry, pharmacology, epidemiology, and neuropsychology comprise this comprehensive reference to clinical assessment and treatment of the many neuropsychiatric disorders of childhood that at a conservative estimate affect five percent of all children.  
1995 384 pp. 43388-6 Hardcover $79.95

**Cambridge Medical Reviews: Neurobiology and Psychiatry Volume 3: Neuroimaging**  
**Robert Kerwin, David Dawbarn and James McCulloch, Editors**  
Neurobiology and Psychiatry serves as a regular forum for the evaluation and dissemination of information on this fundamental aspect of biological psychiatry. This third in the series is devoted to the important role of and advances in neuroimaging within psychiatry.  
1995 192 pp. 45365-8 Hardcover $89.95

HUMAN GENE THERAPY

Editor in Chief: W. French Anderson, M.D.
Associate Editor: A. Dusty Miller, Ph.D.
European Editor: Claudio Bordignon, M.D.

A peer reviewed journal for all aspects of human gene therapy. Publishes scientific papers on original investigations into the transfer and expression of genes in mammals, including humans. Improvements in vector development, delivery systems, and animal models -- particularly in the areas of cancer, heart disease, genetic disease, and neurological diseases are covered. Ethical/legal/regulatory papers related directly to the area of gene transfer into humans. Indexed in Index Medicus, Medline, Current Contents/Life Sciences, EMBASE, Excerpta Medica, Cambridge Scientific Abstracts, and Reference Update.

☐ USA $595, plus $12 p&h  ☐ Overseas $665, includes p&h

Nothing makes the leap between clinical psychology and behavioral medicine like ClinPSYC!

As our understanding of the biological factors in psychological health and the behavioral factors in physical well-being increases, the old boundaries between the mental and the physiological are being erased. And the scientific literature needs of disciplines like clinical psychology, psychiatry, medicine, social work, pharmacology, nursing, and public health are becoming more interdependent.

To help meet these needs, PsycINFO developed ClinPSYC, a specialized CD-ROM database providing abstracts of behavioral literature relevant to these and related fields, including mental and physical disorders and treatments, psychological aspects of physical disorders and treatments, professional issues in the mental health and medical fields, neuropsychology, psychopharmacology, and health and illness assessment methods.

Since ClinPSYC is distributed by CD-PLUS and Silver Platter, you can use familiar software. The on-disc thesaurus makes subject searching precise and simple. And you can choose either a single-user workstation or a network, both priced to suit today's budgets.

For more information on ClinPSYC and our 30-day free trial, call 1-800-374-2722.

Try ClinPSYC Free!

Take advantage of our 30-day free institutional try-and-buy opportunity and experience for yourself the benefits of this exciting scientific database.

ClinPSYC – the interdisciplinary CD-ROM database for today's health professionals

PUBLISHERS

YOUR CONNECTION TO THE FUTURE

We are proud to announce that J.B. Lippincott Company and Raven Press have merged to form Lippincott • Raven Publishers. Our unified goal is to provide you and your clients with contemporary, cutting-edge resources that deliver the information you need in the formats that will serve you best.

Look to Lippincott • Raven Publishers for its highly acclaimed library of books, journals, computer software, audiovisuals, and CD-ROM in a variety of disciplines, including: Anesthesiology, Orthopaedics, Oncology, Radiology, Ophthalmology, Obstetrics & Gynecology, Surgery, Pathology, Neurology, and Pharmacology. Our strong and well-established Nursing and Allied Health lines will continue to publish under the Lippincott imprint. As Lippincott • Raven Publishers, we have strengthened our resources and renewed our commitment to expand our editorial focus and develop new products that will enable us to connect your clients to the future of their professions.

Ordering will remain easy and convenient!

A WOLTERS KLUWER COMPANY
227 E. Washington Square
Philadelphia, PA 19106-3780
During the mid-1800's, Dr. Elizabeth Blackwell opened many doors to the medical community.

A woman on a quest, Elizabeth Blackwell, the modern world's first female doctor, persevered. When no medical school would accept her, she studied privately with doctors throughout the south. Her search for knowledge took her to Paris, London and eventually, The Geneva Medical School. Through hard work and determination, she was accepted, and graduated at the top of her class.

Fortunately, today's medical community has much easier access to knowledge. By combining the traditional (medical subject headings and Boolean) with the innovative (natural language and relevance ranking), those using and teaching Knowledge Finder CD-ROM products save time and gain knowledge. With graphic, intuitive, windowed products, the Knowledge Finder "searching" experience opens new windows of opportunity.

So do what Lois Bellamy and the University of Tennessee did. Help doctors and other health professionals open "windows of knowledge". Install Knowledge Finder, on a Macintosh, PC, or network today. Access MEDLINE, CINAHL, PsycLIT and other specialty files on CD-ROM in the powerful, natural, fun way.

Knowledge Finder®
A system worth discovering
When you order through EBSCO, you can be sure the investment you make in your serials collection is safe. Your assurance against loss to the integrity of your collection includes:

- Unsurpassed fulfillment on journal issues made possible by our global network of publisher contacts and customer service representatives in 19 countries
- Electronic order entry with publishers for the elimination of data input errors
- Payment verification sent to publishers with first claims to reduce the need for additional claims
- Free replacement issues from our Missing Copy Bank® stocked with more than 40,000 issues
- A financially strong and stable organization (Dun & Bradstreet gives EBSCO Industries Inc. the highest financial strength rating in the industry).

Considering the investment your library makes in its serials collection, it doesn’t make sense to trust it to anyone else.
