ERL — the information professionals’ choice this year, and for years to come — offers:

**TRUE CLIENT/SERVER ARCHITECTURE**
ERL technology maximizes network efficiency and ensures that users get optimal performance from the retrieval client of their choice.

**MULTIPLE PLATFORMS**
ERL clients are available for Windows, Macintosh, DOS and UNIX platforms, so you can use the platform most consistent with your existing environment. ERL Server platforms include SCO-UNIX and Sun Solaris, with IBM AIX coming soon.

**EXPANDING OPTIONS**
Through our own development efforts, as well as industry collaborations, we continue to expand the number of client and server platforms available, offering even greater flexibility and choice.

**EASY INTERNET ACCESSIBILITY**
Now you can have Internet access to many databases on your choice of platform, with fully functional clients that provide the same search experience as their standalone counterparts — all for a fixed-fee subscription price.

**PROVEN NETWORK SOLUTION**
More than 85 major institutions and corporations worldwide have proven ERL to be an outstanding network solution. Now you can join them.

**ERL IS AVAILABLE TODAY!**
Call now for further details describing how you can benefit from ERL technology, and to receive the new 1993 SilverPlatter Directory of products and services.

Contact us toll-free at 800-343-0064, or via the Internet at info@silverplatter.com.

Alternative & Complementary Therapies: A New Bimonthly Publication for Health Care Practitioners

Editor: Kevin Blanchet
Volume 1, 1995, Bimonthly, ISSN: 1076-2809
□ USA $120.95 □ Overseas $130

Here is what Experts say:
“A welcome and much-need vehicle for promoting dialogue and understanding between the allopathic and alternative communities.”
—Townsend Letter for Doctors

“I work hard to bring science to alternative medicine, and I tend to read journals more critically than most because I review manuscripts for most major medical journals. Your journal is extremely intelligent and well-done.”
—Barrie R. Cassileth, Ph.D., University of North Carolina

“has articles on everything from alternative therapies to cancer to how to cure cystitis and urinary tract infections the natural way.”
—Howard Torman, M.D., Science Correspondent, CBS-TV

Contents of Vol. 1, No. 1 include: • Unconventional Cancer Therapies: Can Your Patients Benefit? • Alternative Medicine in Managed Care Settings • Natural Medicine Approach to Treatment of Cystitis • Chiropractic Care of Headache • Arthritis Benefits from Shark Cartilage • Alternative Approaches to Treatment of Asthma • Biofeedback Instrumentation for Patient Therapy • Deprenyl and L-dopa: Use of Smart Drugs is Controversial • Pros and Cons of Chelation Therapy • Clinical Applications of Bovine Cartilage • Interview with Andrew Weil, M.D. • The NIH Office of Alternative Medicine: Evaluating Research Outcomes • FDA and the Vitamin Wars: Are Your Patients Winning? • Alternative Medicine on the Internet • Mind-Body Medicine.

Telemedicine Journal

Editor: Mark Goldberg, M.D., Massachusetts General Hospital
Volume 1, 1995, Quarterly, ISSN: 1078-3024
□ USA $166.95 □ Overseas $196

It is currently impossible for practitioners, whether in rural health care of academic settings, to keep abreast of telemedical advances scattered among the literature of fields such as radiology, pathology, cardiology, dermatology, pediatrics, surgery, primary care, etc. Telemedicine Journal allows these practitioners to stay current with the field by providing a centralized resource for the rapid distribution of relevant literature.

Content of the journal will include original papers, review articles, perspective articles from leaders in the field, editorials, case reports, book reviews, and abstracts from the literature.

Journal of Alternative & Complementary Medicine: Research on Paradigm, Practice and Policy

Editor: Marc S. Micozzi, M.D., Ph.D.
Natl Museum of Health & Medicine, Washington, D.C.
Volume 1, 1995, Quarterly, ISSN: 1075-5535
□ USA $130.95 □ Overseas $150

The Journal of Alternative and Complementary Medicine is an important archival source for research in alternative and complementary medical therapies. The journal includes current concepts in clinical care, including case reports that will be valuable for physicians and other health care professionals who are seeking to evaluate and integrate these therapies into patient care protocols.

A primary goal of this new international peer-reviewed journal is the establishment of rigorous research methodologies; under the guidance of its internationally respected editorial board, this Journal develops and encourages publication standards to make possible more effective and reliable measurements, data collection, and analysis.

Microbial Drug Resistance: Mechanism, Epidemiology, and Disease

Editor: Alexander Tomasz, Ph.D., The Rockefeller University
Volume 1, 1995, Quarterly, ISSN: 1076-6294
□ USA $166.95 □ Overseas $196

The powerful emergence and global spread of antibiotic-resistant microbial pathogens and resistance genes in the 1990s present challenges to a wide range of disciplines— from molecular biology of resistance mechanisms, virulence genes, and disease through molecular epidemiology, through drug design, infection control, and medical practice.

Microbial Drug Resistance (MDR) provides a multidisciplinary forum for the rapid publication of original peer-reviewed papers, reviews, case reports, short communications, and other information from all these sectors of the scientific and public health community, and covers the most pressing issues in the field.

THE SURGERY COLLECTION
Two essential tools for today's surgeon or resident

Surgical Endoscopy
Ultrasound and Interventional Techniques
Editors-in-Chief: K.A. Forde, MD and A. Cuschieri, MD
The first monthly journal devoted exclusively to endoscopic surgery and related minimal-access technique. $248.00

World Journal of Surgery
Editor-in-Chief: Ronald K. Tompkins, MD
The most authoritative information on major clinical problems in the fields of clinical and experimental surgery, surgical education and the socioeconomic aspects of surgical care. Bimonthly. $248.00

THE SURGERY COLLECTION (Title No. 558): $417.60 — a 16% savings regularly $496.00 for both journals

THE RADIOLOGY COLLECTION
Covering radiology of the upper-body

Abdominal Imaging
Editors-in-Chief: Morton A. Meyers, MD and Gary G. Ghahremani, MD
An internationally acclaimed source of information on diagnostic imaging and interventions for abdominal disorders, with a special section on genitourinary radiology. Bimonthly beginning January 1994. $224.00

CardioVascular and Interventional Radiology
Coordinating Editor: Kiemens H. Barth, MD
“State-of-the-art” developments in cardiac, vascular and interventional radiology. Bimonthly. $195.00

Dysphagia
Editor: Bronwyn Jones, MD
An international multidisciplinary journal devoted to swallowing and its disorders. Quarterly. $160.00

THE RADIOLOGY COLLECTION (Title No. 557): $492.15 — a 15% savings Regularly $579.00 for all three journals.

THE CLINICAL COLLECTION
Offering optimal savings for medical libraries

Abdominal Imaging
CardioVascular and Interventional Radiology
Dysphagia
Surgical Endoscopy
World Journal of Surgery

THE CLINICAL COLLECTION (Title No. 559): $834.40 — a 22% savings Regularly $1075.00 for all five journals.

All prices include postage and handling charges.

“VANDALS AT THE GATES OF MEDICINE

BY MIGUEL A. FARIA, JR., M.D.

Historic Perspectives on the Battle Over Health Care Reform

Available Now!

A Compelling Prescription

Miguel A. Faria, Jr., M.D. provides compelling arguments that some of the answers to the great dilemma of health care reform reside on the pages of history. This fascinating book draws parallels between the past and the present, as it takes us on a magical journey through time, traveling the ages and visiting enchanted periods in the annals of history. From the time when the fine line separating myth and history was blurred and indistinguishable to the clearly troubled present...

Information for Innovation
DRUGS • BIOMEDICINE • CLINICAL MEDICINE
CRITICALLY ACCLAIMED TITLES FROM CAMBRIDGE

**Integrated Mental Health Care**
A Comprehensive Community-based Approach
*Ian R. H. Falloon and Grainne Fadden Foreword by Michael Shepherd*
"...a valuable introduction to comprehensive community care for primary physicians and community nurses...health care administrators...or faculty who teach in the mental health disciplines." — Hospital and Community Psychiatry Studies in Social and Community Psychiatry
1995 350 pp. 49972-0 Paperback $34.95

**Science and Practice in Clinical Neurology**
S.C. Gandevia, David Burke and Michael Anthony, Editors
"...a very erudite and most valuable textbook...the value of this neatly printed and well edited opus is critical to all of us who are on the front line of caring for those who are neurologically infirm and perplexing." — The Journal of Neurological & Orthopaedic Medicine & Surgery
1994 471 pp. 43119-0 Hardback $64.95

**The Depressed Child and Adolescent Developmental and Clinical Perspectives**
*Ian M. Goodyer, Editor*
Examines the nature and characteristics of depression in children and adolescents. Experts discuss the historical development of the concept and provide a synthesis existing knowledge on the normal development of emotion in young children and the onset of depression in the older child.
Cambridge Monographs on Child and Adolescent Psychiatry I
1995 378 pp. 43326-6 Hardback $79.95

**Fetus and Neonate: Physiology and Clinical Applications**
Volume 2: Breathing
*Mark A. Hanson, John A.D. Spencer, Charles H. Rodeck and Darbydd Walters, Editors*
This volume provides a thorough examination of breathing in the fetus and newborn, analyzing physiology, pathophysiology, and clinical applications. The authors review recent research into fetal breathing, transitional processes at birth, and control of post-natal breathing.
Fetus and Neonate: Physiology and Clinical Applications 2
1995 414 pp. 41765-1 Hardback $85.00

**Photosensitive Epilepsy**
New and Expanded Second Edition
*Graham F.A. Harding and Peter M. Jeavons*
Thoroughly updated to form the most comprehensive review of knowledge on photosensitive epilepsy in humans. It includes details of many recent studies including drug therapy and the genetics of photosensitivity and also looks at the long term prognosis for therapy and the condition.
*Clinics in Developmental Medicine 133*
Distributed for Mac Keith Press
1995 192 pp. 1898-68302-6 Hardback $59.95

**Sapinins**
*K. Hostettmann and A. Marston*
This book is a timely incursion into the field and provides information about occurrence and distribution, structural types, isolation, analysis and structure determination of saponins. Biological and pharmacological activities are discussed, as are aspects of commercial and industrial use.
*Chemistry and Pharmacology of Natural Products*
1995 560 pp. 32970-1 Hardback $120.00

**Antidotes for Poisoning by Paracetamol**
*T.J. Meredith, D. Jacobsen, J.A. Haines and J.C. Berger*
This book, the third in the series, reviews the use of antidotes to paracetamol poisoning. Paracetamol, or acetaminophen, is involved in a large proportion of all poisoning incidents.
*IPCS/CEC Evaluation of Antidotes Series 3*
1995 109 pp. 49576-8 Hardback $49.95

**The Hemopoietic Colony-Modulating Factors From Biology to Clinical Applications**
*Donald Metcalf and Nicos Anthony Nicola*
This is a clear and well illustrated survey of current knowledge and future directions that will prove invaluable for cell biologists, as well as for clinicians.
1995 352 pp. 46158-8 Hardback $64.95

**HIV Infection in Children**
*Jacqueline Mok and Marie-Louise Newell, Editors*
This very practical and concise volume looks at diagnosis and care of the HIV infected child and draws upon the expertise of an international team of contributors. This guide will be of particular interest to paediatricians, whether in a hospital, specialist unit or community based setting.
1995 300 pp. 45421-2 Hardback $59.95*

**Practical Food Microbiology**
*Diane Roberts, William Hooper, Melody Greenwood, Editors*
This practical new publication presents in an easy to follow format the main approaches to the laboratory investigation of the microbial quality of foodstuffs. This book will be an excellent reference for professionals in food science.
*A Public Health Laboratory Service Publication*
1995 250 pp. 55196-X Hardback $49.95

**Akathisia and Restless Legs**
*Perminer Sachdev Foreword by John M. Kane*
This book is a comprehensive account of akathisia and related syndromes, including restless legs syndrome, other forms of motor restlessness, and neuroleptic-induced dysphoria. The main focus is on drug-induced akathisia and its various subtypes. The first extended review of scientific and clinical aspects of akathisia and restless, it will be much valued by psychiatrists, neurologists, and other physicians.
1995 439 pp. 44426-8 Hardback $69.95

**Community Psychiatry in Action Analysis and Prospects**
*Peter Tyrer and Francis Creed, Editors*
This book explains the theory and practice of community psychiatry concentrating on the evidence from research and highlighting recent developments. In looking ahead to impending developments requiring further research, it will help clinicians, economists, and civic planners in the organization of community psychiatric care.
1995 167 pp. 47427-2 Hardback $42.95

Now in paperback...

**Genetic Variation and Human Disease Principles and Evolutionary Approaches**
*Kenneth M. Weiss*
"...a most useful reference for those who wish to familiarize themselves with the area in general and to gain some comprehension of its methodologies." — Doody's Journal
"...provides a comprehensive yet readable account of concepts and methods new to genetic epidemiology and molecular biology, which allows examination of the genetic basis of biological traits." — Choice
Cambridge Studies in Biological Anthropology 11
1993 380 pp. 33660-0 Paperback $24.95

40 West 20th Street, NY, NY 10011-4211

It’s just a matter of time

For almost half a century, we’ve been using the latest technology to meet your serials processing needs. When you needed a fast, easy system for day-to-day serials functions, we developed REMO, the first PC-based serials control system. Then we networked REMO, another industry first.

To help you save time and money in your ordering and claiming, we built the online ROSS system. Then we developed electronic order forms and invoices as well as X12 interfaces for all major library systems. And now, we’re bringing you BarPro, the bar code technology that will redefine serials control.

If you’re looking for some innovative answers to your serials processing needs, call us today at 1 800-221-3306.

As a librarian in a vital, prestigious biomedical organization, Dave's job is to connect people to information. Knowledge Finder® CD-ROM products help him do just that! Since Knowledge Finder® is friendly and powerful with a fuzzy or boolean option, end-users learn to search the literature in minutes. Dave even sees his patrons teaching each other. No wonder he says Knowledge Finder® is the best solution for the librarian.

But Don't Take Dave's Word for It! Try it before you buy it! Let your end-users give Knowledge Finder® or Knowledge Server® (our network version), a No Risk, Free Trial.

As a biomedical, academic, hospital or pharmaceutical library or information center...with interest in MEDLINE®, (and subsets), CANCERLIT®, CINAHL™, HEALTH and other databases.... can you afford not exposing your patrons to such a valuable tool? Give Aries Systems a call today at 508/975-7570 for details of this Limited-Time Free Trial.

Knowledge Finder®
In subscription management, reliability counts. That's why EBSCO maintains the most current, accurate pricing and publisher information available to place your order right the first time and to minimize additional billing. Our per-issue fulfillment rate is unsurpassed. And when claims are necessary, our electronic claim linked to our service network of 29 offices, which networks makes delivery management of the world's publishers' products fast and efficient. Reliability counts in your assessment of a subscription vendor. Perhaps you should take a look. Consistent, quality service you can rely on: EBSCO delivers it ... time after time.
