Any Information. Any Platform. Anywhere in the world. Any Questions?

HUNDREDS OF DATABASES TO CHOOSE FROM
SilverPlatter offers more than 235 databases, on topics from accounting to zoology, from some of the world’s most respected information providers. Our databases cover hundreds of thousands of the world’s publications, studies and patents, all designed to meet your research needs.

WORK FROM THE PLATFORM OF YOUR CHOICE
Our proven SPIRS search and retrieval software allows you to access comprehensive research information from your existing platform, whether it’s Windows, Macintosh, DOS, UNIX — even the Internet. Our new WinSPIRS software for Windows lets you search full text, bibliographic databases and tables of contents. And just one click of the mouse provides seamless searching across multiple databases.

CD-ROM OR INTERNET ACCESS
You can choose from our original subscription option, CD-ROM, which remains the most popular method for accessing information. Or use our Internet Subscription Service, which offers greater flexibility for access, use and storage. Using a full connection to the Internet, you can search from any location from your choice of platform with fully functional clients. And our latest retrieval client, WebSPIRS, provides the same searching experience from any forms-capable browser within the ERL environment.

Only SilverPlatter gives you true client/server architecture with LAN, WAN or Internet access with our award-winning ERL (Electronic Reference Library) Technology. ERL maximizes your network’s efficiency for optimal performance without compromising the full functionality of the retrieval clients.

CALL SILVERPLATTER TODAY
To receive the new 1996 SilverPlatter Directory of products and services, call SilverPlatter Information at 800-343-0064.

SilverPlatter Information, Inc.
100 River Ridge Drive, Norwood, MA 02062
With Majors Electronic Data Interchange Communications System keeping your library current is right at your fingertips. MEDICS™ provides a variety of file transfer functions between Majors and your computer. Functions that let you create and download information like order acknowledgments, new titles, price changes, database extracts, out-of-print titles, new editions pending, approval plan selections and invoicing data. Accessible immediately and at no cost through our 800 number.

Medical Care: The Transformation

The post-entitlement стате лежит в основе подлинных перемен, изменяющих роль медицинской помощи.

Health Affairs is the premier source of health policy—a trusted, reliable source, with:
- peer-reviewed papers from the leading scholars
- data on trends in healthcare costs and spending, access to high-quality insurance coverage
- interviews with industry leaders
- articles on all major health issues, including managed care, state reform efforts

Health Affairs addresses questions such as:
- what is happening to physician payment and practice patterns?
- how are the decisions made about medical care being made?
- in the absence of national leadership, who will take responsibility?
- how will changes in Medicare and Medicaid affect hospitals and patients?

Health Affairs subscribers are:
- physicians and other health professionals
- academics and students in medical, health administration and health policy
- health care executives, policy makers, insurers, pharmaceutical companies, insurers, managed care
- legislators, government officials and health care leaders

Health Affairs is published every 2 months
ISSN 0747-0067

EMBASE
Updated weekly. Every week.

**Depend on EMBASE**, the Excerpta Medica database, for up-to-date biomedical and pharmacological information. We’re faster than other biomedical databases – records are prepared for EMBASE within 15 days of receipt of the original journal, on average. Nothing stops us from updating EMBASE weekly – *every week, every month*, throughout the year – with approx. 7,200 fresh new records.

Try EMBASE today! We’re available online through DataStar, DIALOG, DIMDI, LEXIS/NEXIS, Ovid Online and STN. We’re also available on CD-ROM (monthly updates) through Ovid Technologies and SilverPlatter.

**Count on EMBASE to be there when you need up-to-date biomedical and pharmacological information.**
