HUNDREDS OF DATABASES TO CHOOSE FROM

SilverPlatter offers more than 235 databases, on topics from accounting to zoology, from some of the world’s most respected information providers. Our databases cover hundreds of thousands of the world's publications, studies and patents, all designed to meet your research needs.

WORK FROM THE PLATFORM OF YOUR CHOICE

Our proven SPIRS search and retrieval software allows to you to access comprehensive research information from your existing platform, whether it's Windows, Macintosh, DOS, UNIX — even the Internet. Our new WinSPIRS software for Windows lets you search full text, bibliographic databases and tables of contents. And just one click of the mouse provides seamless searching across multiple databases.

CD-ROM OR INTERNET ACCESS

You can choose from our original subscription option, CD-ROM, which remains the most popular method for accessing information.

Or use our Internet Subscription Service, which offers greater flexibility for access, use and storage. Using a full connection to the Internet, you can search from any location from your choice of platform with fully functional clients. And our latest retrieval client, WebSPIRS, provides the same searching experience from any forms-capable browser within the ERL environment.

Only SilverPlatter gives you true client/server architecture with LAN, WAN or Internet access with our award-winning ERL (Electronic Reference Library) Technology. ERL maximizes your network's efficiency for optimal performance without compromising the full functionality of the retrieval clients.

NEVER JUDGE A BOOK
BY ITS COVER.

TACOLINE™, Majors' TTable of Contents Online, enables you to preview any new book's table of contents. You can easily access the largest inventory of health science, scientific, technical and business titles in the country and get more detailed information about a particular book. It's a benefit of the MORE™ system that enables you to look at more than just a cover. Because after all, it's what's inside that counts.

The new CD-ROM resource ideal for self-study or teaching...

The Wills Eye Hospital Atlas of Clinical Ophthalmology

Review of Clinical Ophthalmology on CD
By Dan Montzka, MD

- 500 new high-quality, full-color images...
- 2 major sections on optics and pathology...

Introducing a powerful new interactive resource —

Lippincott - Raven
PUBLISHERS

The CD-ROM version includes two major new sections covering optics and pathology, and 500 new full-color illustrations. This outstanding library of high-quality images vividly documents the key diagnostic and pathological characteristics of a wide variety of conditions. And you can instantly link up to any page or slide to relevant descriptive text with the hyperlinked index feature — a real plus for onsite research and reference.

It's easy to order!

Information
At the Speed of Science

Rapid delivery of critical information—drugs, clinical medicine, biomedical research—often just days after the publication of the original articles.

Records processed in 15 days!
- EMBASE
  The Excerpta Medica Database
  Over 6 million records from 1974 to the present. Covers 3,500 journals published in 70 countries.

Records processed in 5 days!
- EMBASE Alert
  True current awareness service updated weekly with approximately 7,200 records.

- EMBASE CD-ROM Series
  Full EMBASE, EMBASE Alert and a range of specialty titles, including Drugs & Pharmacology, available on CD-ROM from Ovid Technologies and SilverPlatter.

- EMSCOPES Services
  Providing customized, confidential information acquisition, retrieval, and dissemination. A cost-effective way to build inhouse databases.

- EMDocs
  Document Delivery Service
  The one-stop source for full-text document retrieval from the biomedical, scientific, technical and engineering literature. Full copyright compliance.

- Excerpta Medica Abstract Journals on the Internet
  WWW access to 15 Excerpta Medica Abstract Journals. Current year plus five-year backfile available on a subscription basis. 30-day free trial.

# New Journals from Lippincott-Raven

## Advances in Gastroenterology, Hepatology, & Clinical Nutrition
**Editor-in-Chief:** John P. Cello, MD  
**Associate Editors:** Don C. Rockey, MD, and Johannes Koch, MD

- Major review articles — new developments in the field
- Condensations/Commentaries of recent research — with expert analysis
- World news in brief — summaries plus references

Here is the new management resource for practicing clinicians in gastroenterology, hepatology, and clinical nutrition — providing in one convenient source the latest medical findings and information that have a direct impact on practice. The journal supplies timely articles and analyses from hundreds of different journals, and from all related fields.

Vol. 1, No. 1 - 1996. Bimonthly. ISSN 1085-6595

## The Cardiovascular and Thoracic Anesthesia Journal Club Journal
**Editor-in-Chief:** J. G. Reeves, MD

- The most significant advances in cardiovascular and thoracic anesthesia
- Critical appraisals of new techniques and treatments
- World news in brief — summaries plus references

This convenient resource provides a review of all of the most important articles in the field — supplying timely coverage of new advances in cardiovascular medicine, surgery, and anesthesia for the busy professional. All articles are condensed, with important facts and themes emphasized — and accompanying each abstract is insightful commentary by expert analysts.

Vol. 1, No. 1 - 1996. Bimonthly. ISSN 1084-8258

## Journal of Human Virology
**Editors-in-Chief:** Robert R. Redfield, MD, and William A. Blattner, MD  
**Consulting Editor-in-Chief:** Robert C. Gallo, MD

- Coverage of cutting-edge research
- Rapid publication of particularly "hot topics"
- New technology and equipment assessed

This new international journal provides rapid publication of leading-edge research in the evolving virology field. Peer-reviewed articles focus on viruses associated with chronic diseases, and include basic science, pathogenesis, prevention, intervention, and epidemiology. Original research articles, as well as state-of-the-art reviews, keep the journal's readership up-to-date. Under the editorship of leading figures in the field and with the active participation of an international board of experts, the *Journal of Human Virology* promises to be the premier forum for the field.

Problems in Anesthesia
Editors-in-Chief: Lee A. Fleisher, MD and Donald S. Prough, MD
- The entire spectrum of anesthesiology
- Clinical information of immediate value in daily practice
- Each issue a thematic hardbound volume

Problems in Anesthesia sheds light on difficult and evolving areas within the field of anesthesiology, and presents guidance from experts in a vast range of specialties — benefitting clinical anesthesiologists in all areas of practice. Each hardbound single-topic issue — guest-edited by a leader in their field — focuses on clinical concerns: complications, high-risk challenges, and technical advances.

ISSN 0889-4698

Techniques in Hand and Upper Extremity Surgery
Editor-in-Chief: Andrew J. Weiland, MD
- New surgical techniques
- The latest rehabilitative therapies
- The newest technology and equipment

Techniques in Hand and Upper Extremity Surgery provides unprecedented coverage of the techniques currently used by leading hand and upper extremity surgeons for correction of the entire spectrum of hand and upper extremity conditions. The journal also reports on current progress in rehabilitation and patient management, and features in-depth and balanced explorations of innovative technologies that are having an impact on practice today. Superbly illustrated cover-to-cover with high-quality intraoperative photographs and drawings, many in full color.

Journal of Women’s Imaging
Editor-in-Chief: Ellen B. Mendelson, MD
- Expert guidance on the use of all available modalities
- The latest techniques and newest developments in the field
- Coverage of economic and political aspects of women’s health issues

Journal of Women’s Imaging is the only journal in this new subspecialty focusing exclusively on recognizing and diagnosing specific diseases and abnormalities affecting women, using a variety of imaging techniques. It features original articles peer-reviewed by a multidisciplinary Editorial Board covering both current techniques and the latest emerging developments in gynecologic and breast imaging of women during their reproductive and post-reproductive years. Written and edited by world-renowned specialists, the journal provides definite guidance in gynecologic and breast imaging and diagnostic interventional procedures to enable practitioners to refine and expand their use of imaging in clinical practice.

Now published by Lippincott-Raven Publishers —

The Laryngoscope
Official Publication of the American Laryngological, Rhinological, and Otological Society, Inc.
Editor-in-Chief: Byron J. Bailey, MD
- In its second century of publication
- Peer-reviewed medical, clinical, and research articles
- Special bonus issues covering annual professional meetings

The Laryngoscope — now celebrating its centennial — is the premier monthly resource for cutting-edge medical, clinical, and research articles in otolaryngology, broncho-esophagology, communicative disorders, maxillofacial surgery, head and neck surgery, facial plastic and reconstructive surgery, oncology, and speech and hearing disorders.
ISSN 0023-852X

Journal of Vascular and Interventional Radiology
Official Journal of the Society of Cardiovascular and Interventional Radiology
Editor: Daniel Picus, MD
- Clinical applications of new techniques
- Routine and complex procedures
- Patient care issues

Journal of Vascular and Interventional Radiology is the leading journal in this rapidly developing field — providing timely, authoritative coverage of vascular diagnosis and intervention, technical developments and instrumentation, and issues critical to the subspecialty training of practice standards and technology assessment. Peer-reviewed coverage includes articles by nonradiology clinicians as well, who address topics of importance in the care of patients undergoing vascular and interventional procedures. An “Interventional Radiologist at Work” section features expert discussion of minimally invasive approaches to both routine and difficult interventional cases.
ISSN 1051-0443
A Tradition of Excellence

The Thread of Life
The Story of Genes and Genetic Engineering
Susan Aldridge
"Anyone looking for a dependable insight into the applications and implications of molecular genetics—on what is really happening and what realistically might happen in the future—can be directed with confidence towards...The Thread of Life..."
— New Scientist
This book takes the interested reader behind the headlines to explore the fascinating world of molecular biology. The author gives an accessible account of the world of DNA and also explores its present and future applications.
1996 270 pp. 46542-7 Hb $24.95

Homelessness and Mental Health
Dinesh Bhagta, Editor
This volume brings together the experiences of mental health teams from around the world in addressing the problems of mental illness in the homeless. The difficulties in assessment and treatment are discussed at length with an emphasis on the application of existing knowledge in health care.
Studies in Social and Community Psychiatry 1996 c.180 pp. 45202-3 Hb $85.00

The Neurobiology of Disease
Contributions from Neuroscience to Clinical Neurology
H. Bostock, P.A. Kirkwood, and P.A. Pullen, Editors
This volume considers a range of topics from the points of view of both neurobiologist and clinician and reveals how advances in our understanding have been and continue to be made. The selected topics cover a wide range of levels of organization in the nervous system.
1996 462 pp. 45132-9 Hb $110.00

A Clinical Guide to Inherited Metabolic Diseases
Joe T. R. Clarke
In determining if the patient has an inherited metabolic disease, this user-friendly handbook is intended to help the busy physician with a first critical step in clinical diagnosis. Its unique organization facilitates rapid diagnosis.
1996 c.250 pp. 48064-7 Hb $74.95

The Troubled Helix
Social and Psychological Implications of the New Human Genetics
Theresa Marteau and Martin Richards, Editors
"...[It] contains a lot of new and valuable information about patients' and geneticists' perceptions of genetic disease, together with some insights into the successes and difficulties of research directed at improving how we communicate."
— D.J. Weatherall, British Medical Journal
1996 377 pp. 46288-6 Hb $64.95

The Clock of Ages
Why We Age—How We Age—Winding Back the Clock
John J. Medina
"While no one has discovered a way to prevent aging and death, Medina ably brings together what we know about these inevitable processes and provides insights into possible avenues of future research."
— Kirkus Reviews
The Clock of Ages takes us on a tour of the aging human body. From the deliberate creation of organisms that live three times their natural span to the isolation of human genes that may allow us to do the same, the author examines the latest discoveries in geriatric genetics. Sprinkled throughout the pages are anecdotal descriptions taken from historical accounts of the aging and dying of many famous figures.
1996 344 pp. 46244-4 Hb $24.95

Adults with Autism
A Guide to Theory and Practice
Hugh Morgan, Editor
As many health care professionals will attest, there is a scarcity of literature that specifically addresses autism in adults. This volume sets out to fill this gap by providing practical help and guidance specifically for those caring for the growing recognized population of autistic adults.
1996 c.200 pp. 45070-5 Hb $85.00

Cell Therapy
Stem Cell Transplantation, Gene Therapy, and Cellular Immunotherapy
George Morstyn and William Sheridan, Editors
This volume in the series Cancer: Clinical Science in Practice, examines the current state and future prospects of hematopoietic cell therapy, which seems likely to have an even more profound impact on health care than did the production of proteins by recombinant DNA technology. The coverage is broad, including the scientific principles of cell therapy and gene therapy, the technology of cell collection and preparation, current and likely future clinical applications of cell therapy, and the principles and practice of cellular immunotherapy.
Cancer: Clinical Science in Practice
1996 646 pp. 47315-2 Hb $100.00

Neonatal Cerebral Ultrasound
Janet M. Rennie
This fully illustrated atlas and well-referenced text provides a comprehensive guide to brain imaging in newborn babies using ultrasound. The volume is unique because it includes examples of normal and abnormal appearances, illustrated from pathological specimens and diagrams of standard views, accompanied by full discussion and advice on prognosis.
1996 c.286 pp. 45079-9 Hb $95.00

Variability in Human Fertility
L. Rosetta, Editor
This book shows that 'normal' reproductive cycles cover a wide range of eventualities, and that the likelihood of successful monthly egg release and ensuing pregnancy is highly variable both between women and within an individual. The book discusses some of the factors which affect fertility such as diet, physical activity, stress and breast-feeding, and examines the implications of this for individuals and societies.
Cambridge Studies in Biological Anthropology 19
1996 c.240 pp. 49569-5 Hb $54.95

Hyperactivity Disorders of Childhood
Seiha Sandberg, Editor
Drawing upon international expertise this volume provides balanced and in-depth reviews of basic research and practical treatment as well as novel perspectives in contributions on sex differences, cross-national studies and developmental outlook.
Cambridge Monographs on Child and Adolescent Psychiatry 2
1996 c.375 pp. 43250-2 Hb $95.00

Alcohol, Pregnancy and the Developing Child
Hans-Ludwig Spohr and Hans-Christoph Steinhausen, Editors
This authoritative new publication deals with the relationship between maternal alcohol abuse during pregnancy and the resulting in utero damage to the child as well as the long-term consequences of this damage for the development of affected children. The internationally acclaimed team of contributors provides a timely and much-needed summary of the long-term prenatal effects of maternal alcohol abuse.
1996 325 pp. 56426-3 Hb $74.95

Feeding the Disabled Child
Peter B. Sullivan and Lewis Rosenbloom
This book, the first of its kind, attempts to explain the causes and consequences of feeding difficulties in disabled children, and to outline how such children can be fully assessed so that effective treatment programmes can be implemented to alleviate their nutritional problems.
Clinics in Developmental Medicine 140
Distributed for Mac Keith Press
1996 c.256 pp. 1898-68308-5 Hb $64.95

Birth to Death
Science and Bioethics
David C. Thomasma and Thomasine Kushner, Editors
This text reviews the major biological advances of recent years and explores their ethical implications. Organized by stage of human life—from birth to death—it guides the reader through the critical issues that face our technologically advanced society.
1996 398 pp. 46297-5 Hb $54.95

VISIT US AT
BOOTH #212

Institute for Scientific Information
Discover what your life science searchers are missing:

- meeting papers
- reviews
- patents
- books

Apply for a free trial of Biological Abstracts/RRM® on CD.

Help your researchers obtain references to information not covered by other biological and medical databases. Apply for a trial of Biological Abstracts/RRM (Reports, Reviews, Meetings) on CD and let your researchers evaluate how complete their search results will be with references to meeting papers, reviews, books, and U.S. patents.

Biological Abstracts/RRM on CD provides over 140,000 references to 2,000 meetings, symposia, and workshops annually, including:

- International Conference on AIDS
- Annual Meeting of the Society for Neuroscience
- Annual Meeting of the American Association for Cancer Research
- Meeting of the American Federation for Clinical Research

Researchers also can rely on Biological Abstracts/RRM on CD’s references to review articles, books, and book chapters, and U.S. patents.

Apply for a free trial today so your researchers can evaluate Biological Abstracts/RRM using their own areas of research. The trial program includes at least one quarter’s worth of data, your choice of either SilverPlatter search software, quick reference card, database documentation, and complete support from the BIOSIS Help Desk.

HEALTH CARE ON THE INTERNET
a journal of methods & applications

Editor: Eric P. Delozier, MLS
Senior Assistant Librarian, The George T. Harrell Library,
The Milton S. Hershey Medical Center,
The Pennsylvania State University, Hershey

Associate Editor: M. Sandra Wood, MLS, MBA
Librarian, Reference and Database Services, The George T. Harrell Library,
The Milton S. Hershey Medical Center, The Pennsylvania State University, Hershey

“I would like to congratulate the editors for taking the initiative to provide this much-needed resource. . . . The librarian on the firing line at the reference desk will especially appreciate this journal. Whether located in hospitals or in public or academic libraries, reference librarians are always pressed for time and do not have extra hours to spend ‘surfing the Net.’ Health Care on the Internet will provide a quality filter for Internet resources. . . . An extremely useful addition to the professional library and informatics education.”
—Kathleen A. Moeller, MLS, AHIP, Director of Library and Research Services, Atlantic Health System—Overlook Hospital Campus, New Jersey

“A refreshing and welcome emphasis on what’s on the Internet for medicine consumers together with a wealth of useful resources and techniques.”
—Alan M. Rees, Professor Emeritus, Case Western Reserve University; Editor, Consumer Health and Nutrition Index; Author, Consumer Health Information Source Book, 4th Edition

MEDICAL REFERENCE SERVICES QUARTERLY

“Imaginatively conceived and supported by an impressive editorial board. Medical reference librarians will find much of use and interest in it.”
—Australian Academic and Research Libraries

“Recommended as one of the most relevant publications to the practical requirements of medical librarians yet produced.”
—InCite Magazine

This highly acclaimed journal is the "working tool" for medical and health sciences librarians. For those professionals who provide reference services to health sciences personnel in clinical, educational, or research settings, Medical Reference Services Quarterly covers topics of current interest and practical value in the areas of reference in medicine and related specialties, the biomedical sciences, nursing, and allied health.

Announcing
McGraw-Hill Encyclopedia of Science & Technology,
8th Edition

Increased Coverage of the Medical Sciences

Some Scientific Achievements Speak Volumes

In every library there should be a first place researchers, students, educators and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place:

• 1,600 new or totally revised articles
• 1,700 entirely new or enhanced illustrations
• New contributors, including three recent Nobel Peace Prize winners
• Completely revised and updated bibliographies in each volume
• NEW! An activities guide to help teachers integrate science and technology into educational curricula.

Special Prepublication Offer—
Save Over $200
Pre-publication price $1,750 through 5/31/97; $1,995 thereafter. ISBN: 0-07-911504-7
Information industry leaders providing subscription services, article delivery and library automation software.

Knowledge Finder from Aries.
It's like getting a luxury automobile...
...at a compact price.

Unbelievable? Read on...

Knowledge Finder® from Aries Systems is the powerful medical literature searching system, delivering highly affordable network solutions for librarians and end-users.

Used worldwide in libraries, hospitals, offices and homes, this proven software features natural language, Boolean, fuzzy, MESH and relevance-ranked searching. Knowledge Finder offers time-saving, easy-to-learn tools, all at a surprisingly low price.

The Knowledge Finder package includes:

- No installation fee
  (easily user-installed in minutes)
- No start-up or activation fees
- No ongoing annual software maintenance charges
- No additional charge for software updates
- Technical phone support
- Competitive annual subscription fees

Still not convinced? Call for a free 30-day no-risk test drive. If you’re not completely satisfied, return it. No questions asked.

Knowledge Finder is available for both Windows™ and Macintosh®, single stations and networks, and supports MEDLINE® (and subsets), CANCERLIT®, CINAHL™, HEALTH, PsycLIT®, EMBASE Alert® and a growing collection of full-text titles.

Once upon a time...

when the primary form of information was print, EBSCO was a leading subscription agency with lots of serial titles. We’ve expanded our services right along with technology, and now we’re a worldwide information management company. We still offer lots of serial title listings — 256,000 of them — but we also offer CD-ROM research tools, an online reference center and document delivery. And libraries can use the World Wide Web to make access and management of information even faster and easier.

To get all the information you need from only 1 source and live happily ever after,

visit http://www.ebsco.com
