Any Information. Any Platform. Anywhere in the world. Any Questions?

HUNDREDS OF DATABASES TO CHOOSE FROM

SilverPlatter offers more than 235 databases, on topics from accounting to zoology, from some of the world's most respected information providers. Our databases cover hundreds of thousands of the world's publications, studies and patents, all designed to meet your research needs.

WORK FROM THE PLATFORM OF YOUR CHOICE

Our proven SPIRS search and retrieval software allows you to access comprehensive research information from your existing platform, whether it's Windows, Macintosh, DOS, UNIX — even the Internet. Our new WinSPIRS software for Windows lets you search full text, bibliographic databases and tables of contents. And just one click of the mouse provides seamless searching across multiple databases.

CD-ROM OR INTERNET ACCESS

You can choose from our original subscription option, CD-ROM, which remains the most popular method for accessing information. Or use our Internet Subscription Service, which offers greater flexibility for access, use and storage. Using a full connection to the Internet, you can search from any location from your choice of platform with fully functional clients. And our latest retrieval client, WebSPIRS, provides the same searching experience from any forms-capable browser within the ERL environment.

Only SilverPlatter gives you true client/server architecture with LAN, WAN or Internet access with our award-winning ERL (Electronic Reference Library) Technology. ERL maximizes your network's efficiency for optimal performance without compromising the full functionality of the retrieval clients.

Needs Today

Far more than half a century, Physicians’ Desk Reference has remained an indispensable decision making tool. In its many print and electronic forms, PDR is consulted by virtually every physician and the majority of health care professionals when making prescribing and administration decisions.

PDR and its companion editions, PDR for Ophthalmology and PDR for Nonprescription Drugs, are referenced daily by prescribing physicians, physicians assistants, pharmacists, nurses, and researchers as well as government agencies, insurance companies, managed care facilities and consumers of every description. Our electronic drug data base is available via CD-ROM, diskette, the Pocket PDR, and the World Wide Web http://www.purser.com, in fact, more than one million decision makers turn to the PDR database 253 times annually.

The 1997 PDR contains more than 2,600 pages, 3,200 drug listings representing 250 pharmaceutical manufacturers and over 1,300 full-size full-color drug photographs. No other drug information resource comes close to the practical, accurate, comprehensive coverage you get in PDR. It is the most authoritative and complete drug reference you can buy. Your complete satisfaction is guaranteed by Medical Economics.

Announcing
McGraw-Hill Encyclopedia of Science & Technology,
8th Edition

In every library there should be a first place researchers, students, educators, and librarians turn to find information on any scientific or technical subject. A place where the inspiration for starting a research project, the supporting evidence for a paper, or the authoritative answer to an intriguing question can always be found.

More than ever, the new Eighth Edition of the McGraw-Hill Encyclopedia of Science & Technology is that place...

- 1,600 new or totally revised articles
- New contributors, including a 1996 Nobel Prize winner
- NEW! An Activities Guide to help teachers and librarians encourage students in scientific exploration
- 1,750 new or enhanced illustrations
- Completely revised and updated bibliographies in each volume

No library should be without the McGraw-Hill Encyclopedia of Science & Technology: Eighth Edition — the first science reference that's a scientific achievement in its own right.

Learn more about the 8th Edition at www.mhreference.com

The commitment to excellence begins...

For 100 years and counting, The Laryngoscope has remained committed to the rapid publication of significant, peer-reviewed, multispecialty articles by leading clinicians and investigators worldwide. Long regarded as the leading cross-disciplinary publication in the field, the journal is a vital forum for the latest medical, clinical, and research developments in otolaryngology... bronchoscopy... all... pediatrics... communicative disorders... maxillofacial surgery... otology/neurology... head and neck surgery... maxillofacial surgery... facial plastic surgery... and speech and hearing defects.

With its strong emphasis on optimal patient care, The Laryngoscope covers all major congenital and acquired diseases and disorders of the head and neck, including infectious, inflammatory, and neoplastic conditions.

The tradition of excellence continues...

In honor of the 100th anniversary of The Laryngoscope and the American Laryngological, Rhinological and Otological Society (the Triological Society), Lippincott-Raven Publishers is offering a special centennial subscription rate for new subscribers. Enter your subscription to The Laryngoscope between now and May 1997 and you will save more than 20% off the regular individual subscription rate.

(Available to new subscribers only. This offer does not apply to institutions or residents.)

A Tradition of Excellence

AUTISM/PSYCHIATRY
Adults with Autism
A Guide to Theory and Practice
Hugh Morgan, Editor
As many health care professionals will attest, there is a scarcity of literature that specifically addresses autism in adults. This volume sets out to fill this gap by providing practical help and guidance specifically for those caring for the growing recognized population of autistic adults.
1996 312 pp. 45070-5 Hardcover $85.00
45683-5 Paperback $32.95

EMERGENCY MEDICINE
Hyperthermic and Hypermetabolic Disorders
Exertional Heat Stroke, Malignant Hyperthermia and Related Syndromes
Philip M. Hopkins and F.R. Ellis, Editors
This authoritative and comprehensive new publication looks in depth at a range of medical syndromes characterized by serious and unpredicted internal overheating of the body. These episodes may arise suddenly and unexpectedly in certain individuals, with life-threatening consequences, either as a result of heat stress, excessive physical exertion or in response to certain common anesthetics and some drugs, including ecstasy. The chapters focus on the full range of these syndromes, their metabolic and physiological basis, the important pre-disposing factors for the prediction of those at risk, and the medical management of these conditions.
1996 298 pp. 44381-4 Hardcover $79.95

GENERAL MEDICINE
Medical Writing: A Prescription for Clarity
Second Edition
Neville W. Goodman and Martin B. Edwards
Including a new chapter that focuses on clarity of data presentation in graph form, the complete text has also been updated to include coverage of the latest writing trends and jargon. Many new examples are used alongside cartoons to effectively illustrate the point at hand.
1996 c.200 pp. 49876-7 Paperback $19.95

GENERAL REFERENCE
The Cambridge Dictionary of Scientists
Ian Millar, et al., Editors
Covering over 1,300 key scientists from more than thirty-eight countries, this alphabetically organized biographical dictionary is interspersed with portraits, diagrams, maps and tables, etc. It is an accessible guide to the world’s prominent scientific personalities.
1996 399 pp. 56185-X Hardcover $39.95
56718-1 Paperback $16.95

GENETICS
Birth to Death Science and Bioethics
David C. Thomasma and Thomasin Kushner, Editors
Aimed at the general reader, this text reviews the major biological advances of recent years and explores their ethical implications. Organized by stage of human life—from birth to death—it guides the reader through the critical issues that face our technologically advanced society.
1996 398 pp. 46297-5 Hardcover $54.95

HISTORY OF MEDICINE
The Cambridge Illustrated History of Medicine
Roy Porter, Editor
Against the backdrop of an unprecedented concern for health today, this book not only surveys the rise of medicine in the West from earliest times to the present day, but also glimpses into the future. It is written by a team of experts coordinated by one of the most distinguished and prolific writers and researchers into the history of medicine, Roy Porter. Both authoritative and accessible, this book is the only serious choice for a reader wanting a lively and informative illustrated introduction to medical history.
1996 400 pp. 44211-7 Hardcover $39.95

OBSTETRICS/GYNECOLOGY
Fetal Therapy Invasive and Transplacental
Nicholas M. Fisk and Kenneth J. Moise, Editors
Foreword by G.C. Liggins
This book covers the exciting developments of the last ten years of fetal therapy including drug treatment, blood transfusions, and operations on the fetus inside the womb. It is the only book to cover both the invasive forms of treatment given directly to the fetus, and the indirect forms given via the mother, as well as the only book to cover the medical as well as surgical aspects of this field. It will be an essential source of reference for all those involved in the care of the unborn child, and particularly for obstetricians training in fetal medicine.
1996 c.460 pp. 46133-2 Hardcover $110.00

PATHOLOGY
Acute Liver Failure
William M. Lee and Roger Williams, Editors
Foreword by Jean-Pierre Benhamou
Acute liver failure (ALF) is a distinct clinical syndrome which crosses medical disciplines. A relatively rare condition, ALF remains a major focus of clinical and research attention and with the advent of transplantation, understanding ALF management has taken on new urgency. This volume, the first dedicated to ALF, describes the etiology, pathology and treatment of this important syndrome. Also covered are consensus techniques in liver transplantations, liver assist devices and future treatments.
1997 c.320 pp. 55381-4 Hardcover $100.00

PEDIATRICS
A Clinical Guide to Inherited Metabolic Diseases
Joe T.R. Clarke
In determining if the patient has an inherited metabolic disease, this user-friendly handbook is intended to help the busy physician with a first critical step in clinical diagnosis. Its unique organization facilitates rapid diagnosis.
1996 299 pp. 48064-7 Hardcover $74.95
48524-X Paperback $29.95

Neonatal Cerebral Ultrasound
Janet M. Rennie
This fully illustrated atlas and well-referenced text provides a comprehensive guide to brain imaging in newborn babies using ultrasound. The volume is unique because it includes examples of normal and abnormal appearances, illustrated from pathological specimens and diagrams of standard views, accompanied by full discussion and advice on prognosis. The volume will be an essential resource of reference and guidance for all who work in neonatal intensive care and for radiologists and radiographers.
1996 c.286 pp. 45079-9 Hardcover $90.00

The Pocket Pediatrician
The BC Children's Hospital Manual
M. Seear, Editor
Written by a highly experienced team of specialists based at the BC Children's Hospital in Vancouver, this compact yet comprehensive handbook provides the most up-to-date and authoritative advice available on the care of the sick child. It covers the full range of pediatric problems likely to be encountered.
1996 626 pp. 56881-1 Paperback $29.95

PSYCHIATRY
Hyperactivity Disorders of Childhood
Seija Sandberg, Editor
Hyperactivity is common with an incidence of up to 17% in certain age groups. Drawing upon international expertise this volume provides balanced and in-depth reviews of basic research and practical treatment as well as novel perspectives in contributions on sex differences, cross-national studies and developmental outlook.

Cambridge Monographs on Child and Adolescent Psychiatry 2
1996 540 pp. 43250-2 Hardcover $95.00

AWHONN & Lippincott Partners in Publishing

Lippincott, the world's leading publisher of nursing information, in partnership with AWHONN, the Association of Women's Health, Obstetric and Neonatal Nurses, is proud to announce a new and exciting AWHONN publication... AWHONN LIFELINES.

AWHONN LIFELINES provides a refreshing look at practice management resources and industry trends. AWHONN LIFELINES has been designed as an invaluable counterpoint to the most respected publication in the field—JOGNN, the Journal of Obstetric, Gynecologic, and Neonatal Nursing.

Great News for Institutional Subscribers

JOGNN and AWHONN LIFELINES will now become a combination subscription package. Starting in January 1997, subscribers will receive these two important publications, JOGNN and AWHONN LIFELINES, on alternate months each year. This new AWHONN combination subscription package will be priced at $218 a year for U.S. institutions, and $248 plus $14 air freight for institutions outside the U.S.

This remarkable journal combination is guaranteed to keep readers current with valuable information and the latest issues challenging today's nurse. To learn how you can take advantage of this outstanding new offer, please contact your subscription agent or call Lippincott at 1-800-777-2295.
